To: Committee of Adjustment

I have received a Public Notice Application # A-2021-0231 regarding the request for variance at 83 Mill Street South, Brampton and as a nearby resident I would oppose this application as it appears now.

The appearance of the proposed below grade entrance stairs at the front of this house would not fit in with the established neighbourhood street scape especially since this is an open corner lot.

I would also be concerned about the possible harmful affect on the mature maple tree located in that area (not shown on the plan).

If a variance was to be granted, it would appear that a below grade entrance should be located at the back of this side wall.

I would appreciate being included in the Application meeting on Tuesday, October 26, 2021.

Thank you for your assistance,

Susan Laberge
