

The vision for the Downtown is for all ages, abilities, and for everyone to thrive.

Key Action Items

1.1 – provide more outdoor seating at transit stops and on streets, in parks and along trails, etc (MT)

1.6 – Explore opportunities for additional public washrooms at City-owned buildings, City-owned parks (i.e. Gage Park, Transit Terminals) (LT)

2.1 – Improve local Brampton transit system in terms of routes and frequency (e.g. locations where Seniors frequent) (LT)

2.9 – Complete Streets Guidelines - a complete, City-wide approach to addressing streetscape design. This should be done with an Age-Friendly lens. (ST)

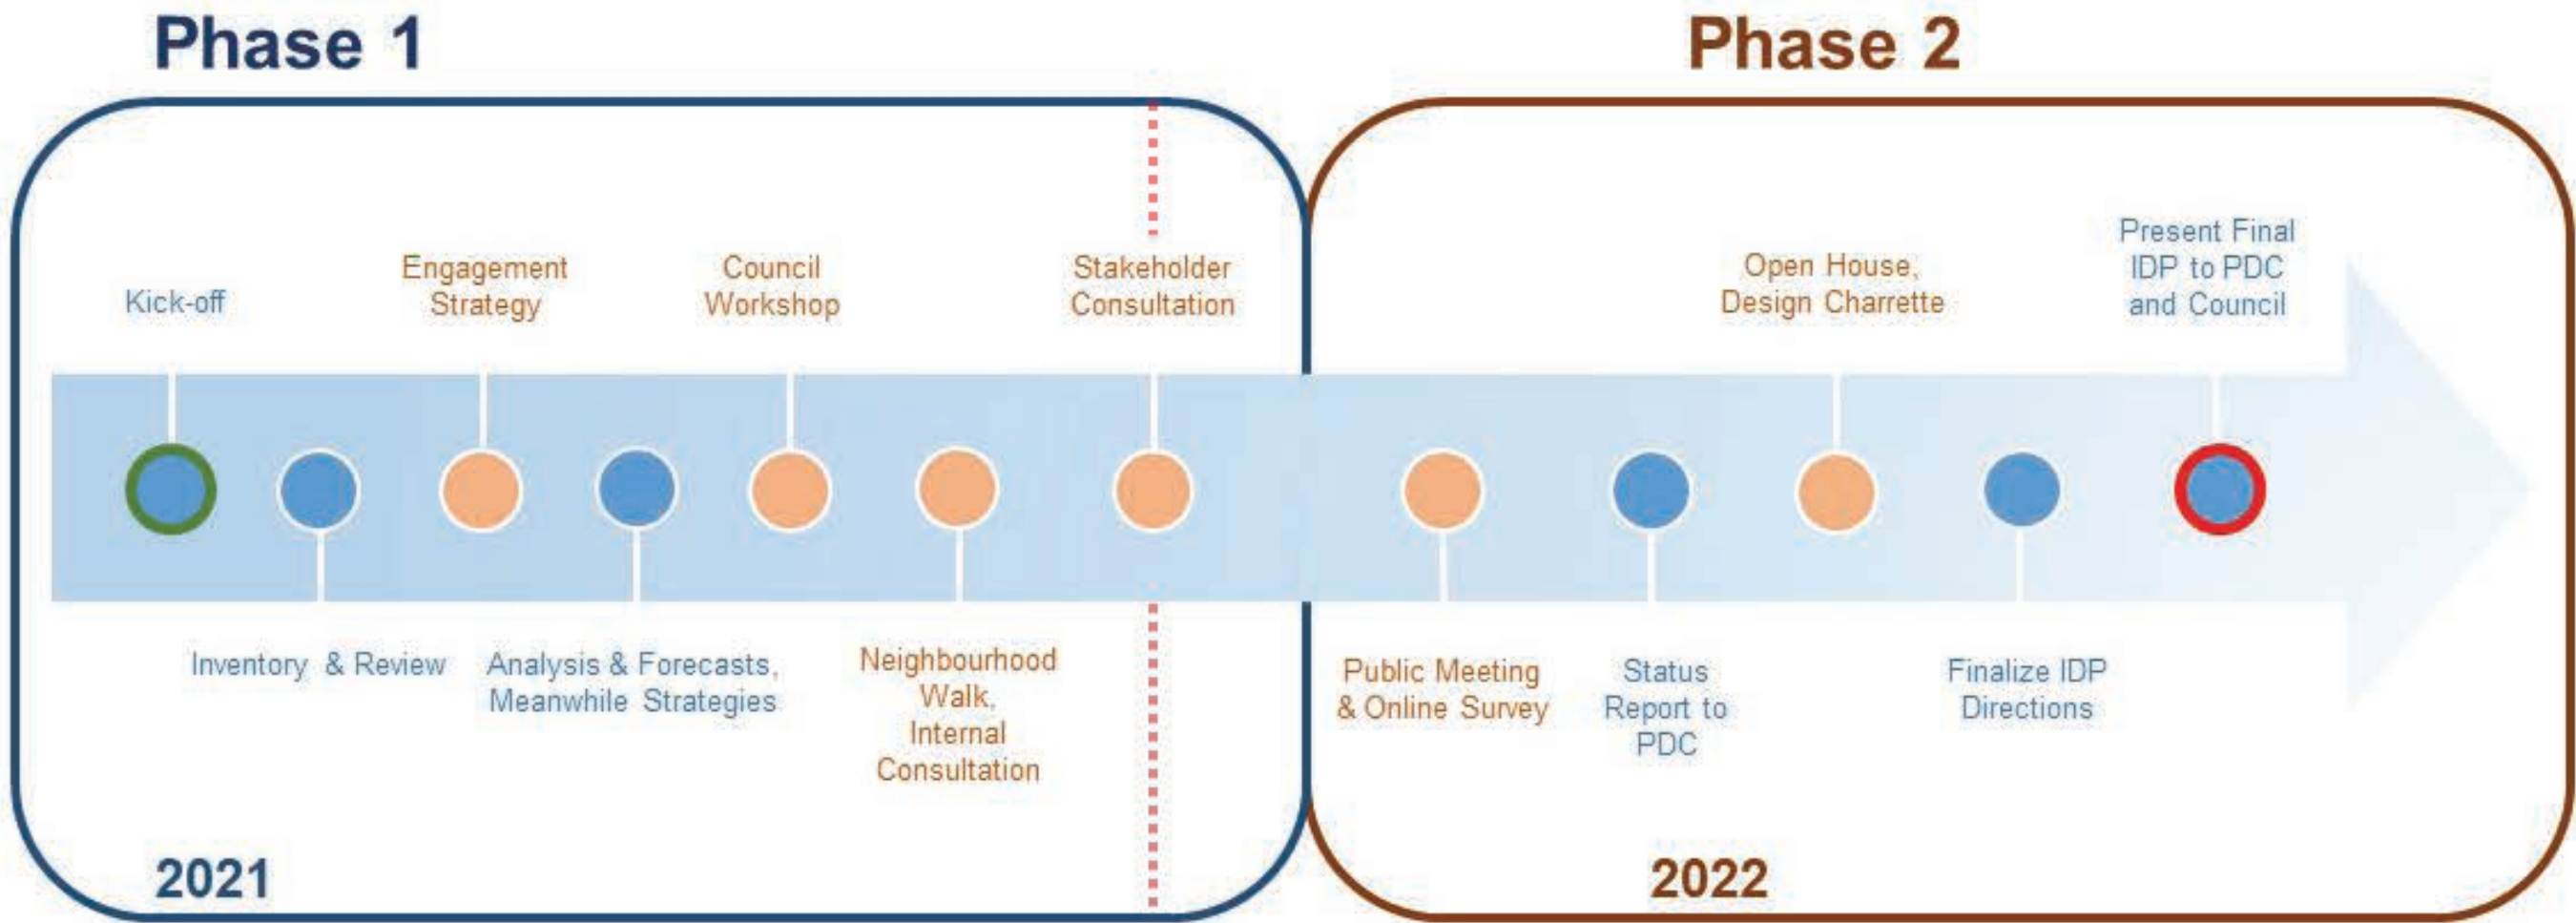

3.2 – Provide more diverse housing options and sizes throughout the City. (ST)

3.3 – Increase supply of affordable housing. (ST)

3.4 – Encourage housing to be located near amenities to avoid social isolation and loss of independence. (ST)

ST - Short Term
MT - Medium Term
LT - Long Term

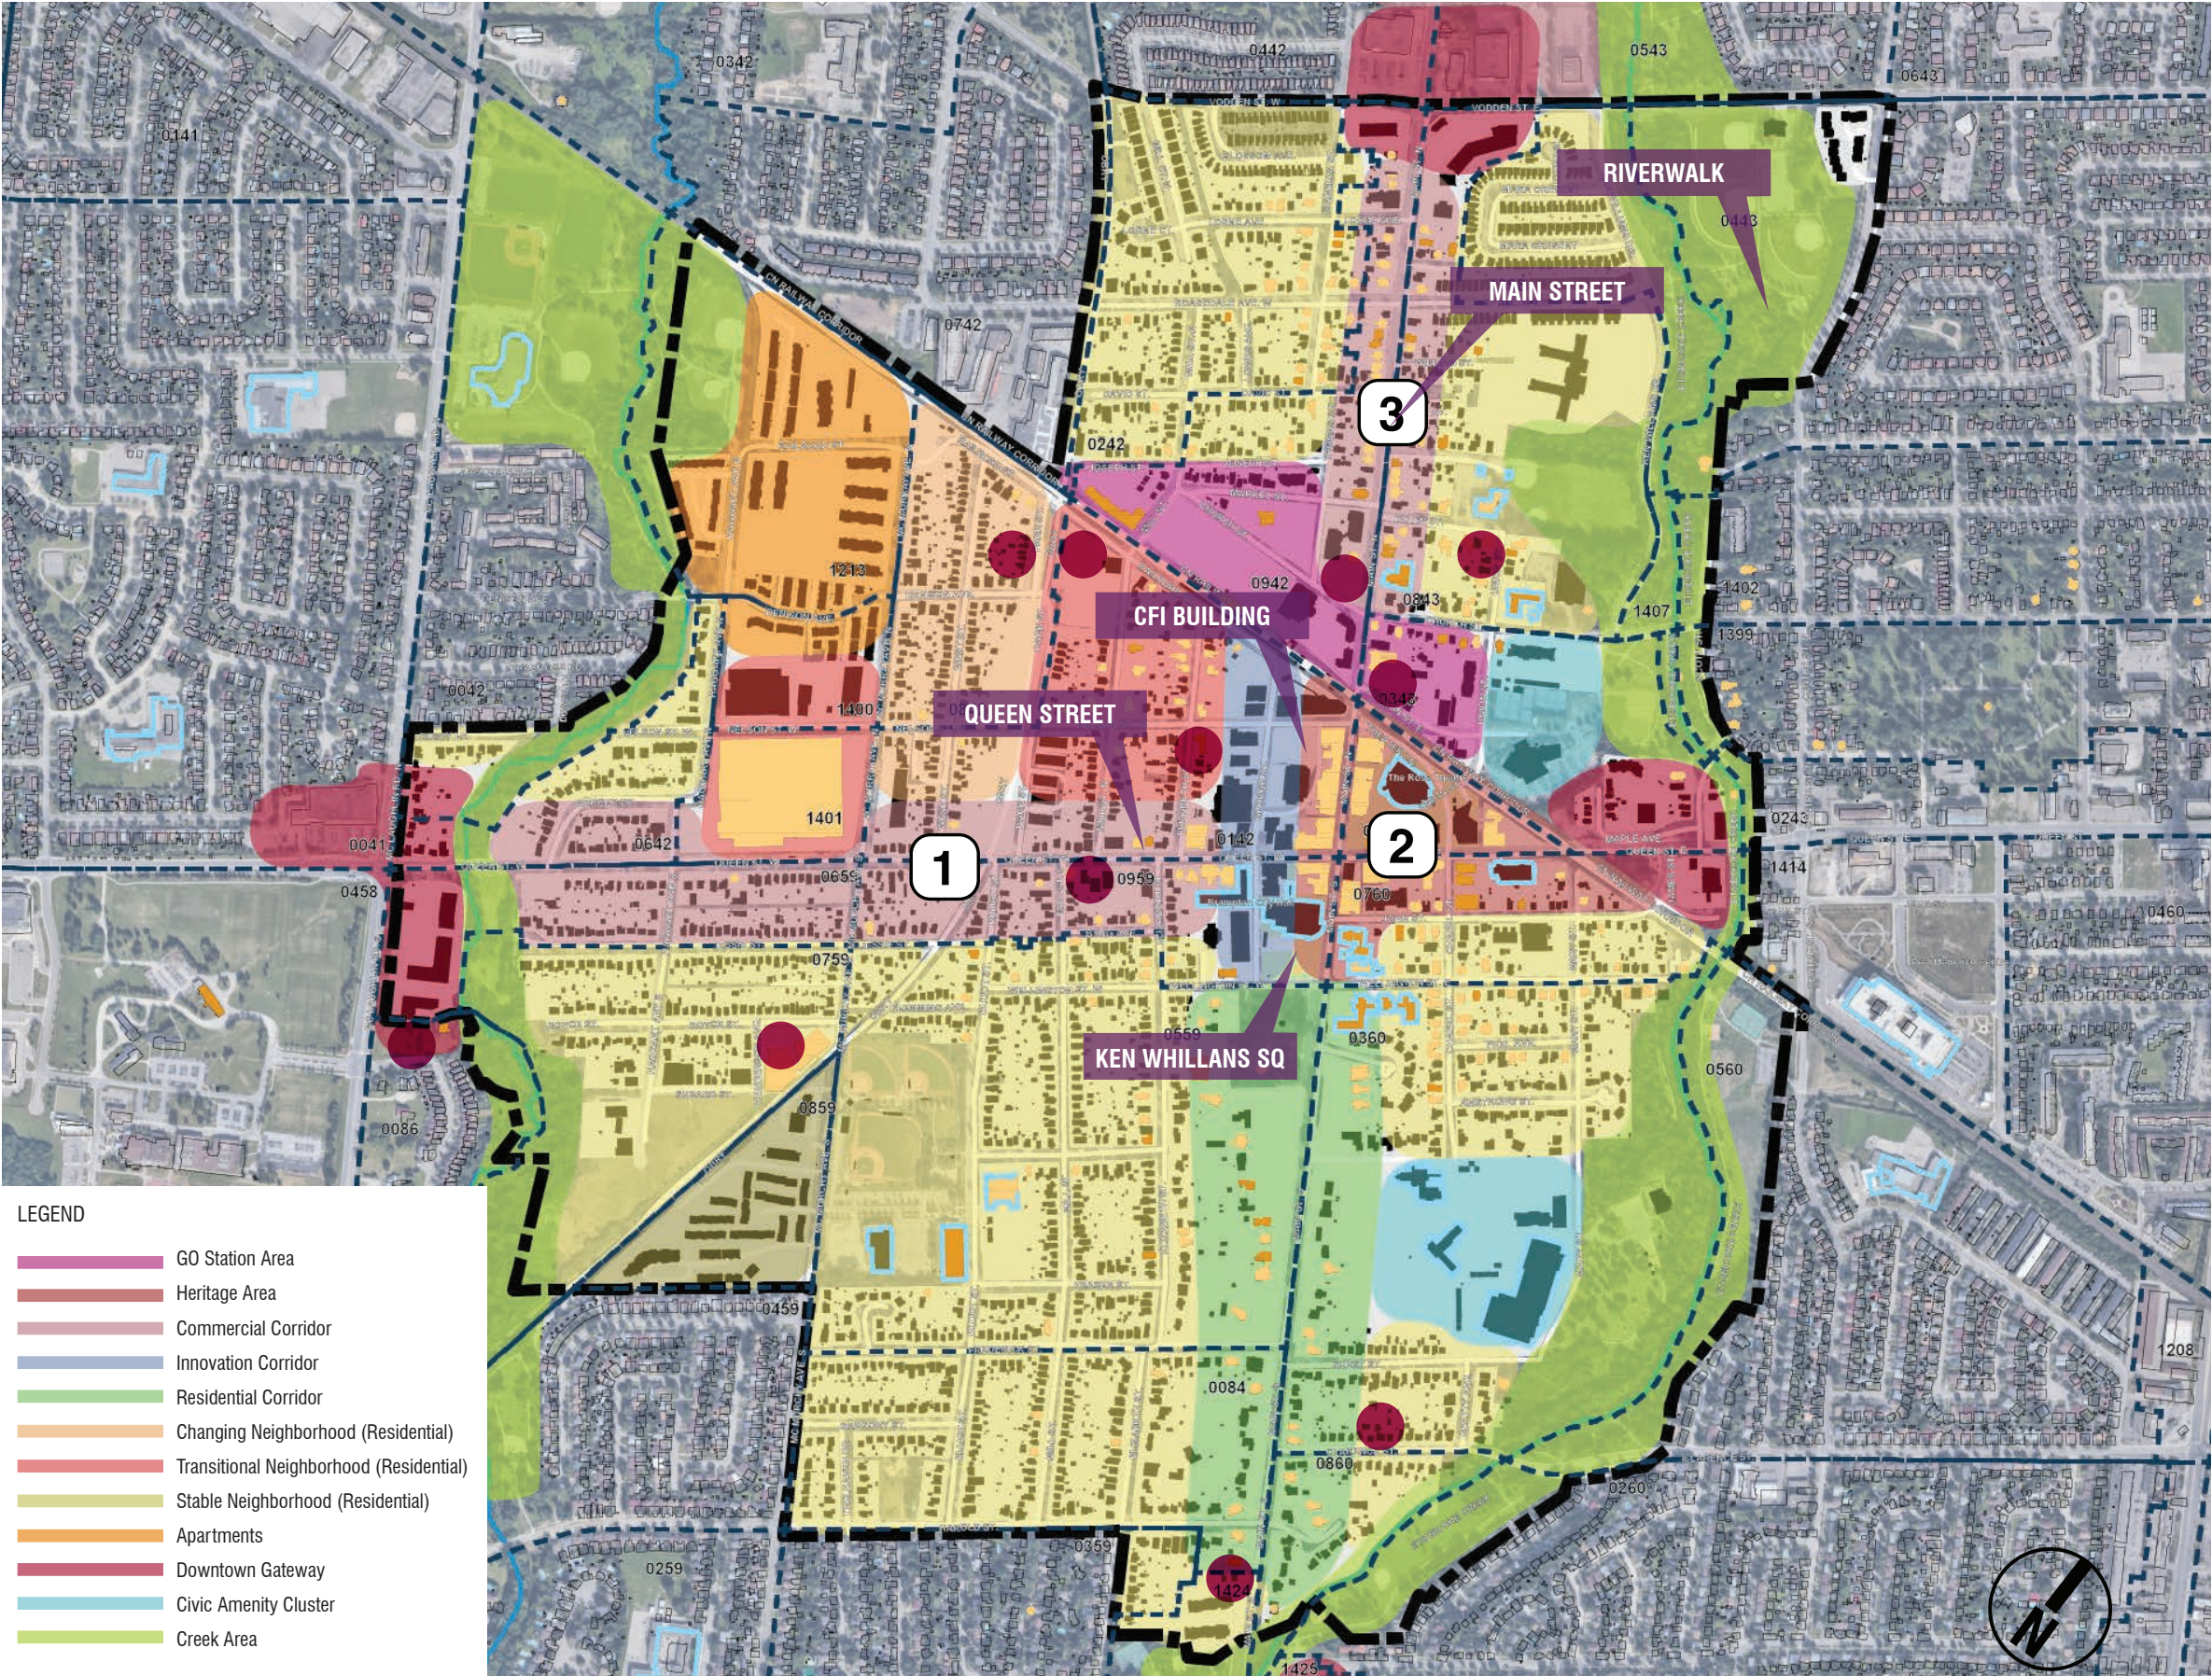

1. How can the Integrated Downtown Plan (IDP) create supportive and enabling environments as part of Downtown revitalization?
2. What optimizing opportunities for health, participation, security and life-long learning would you like to see in the Downtown?
3. How can the IDP focus on building complete neighbourhoods with a diverse housing mix that helps achieve aging in place principles?
4. When considering “age in place” what community improvements should the IDP consider to make the Downtown safe, accessible, comfortable and walkable?

3.1.3. Streetscape

Historically, the streetscape was distinguished by a tree canopy established around the turn of the last century with plantings along the inside edges of the sidewalks. Despite some losses, mature shade trees remain an important component of the streetscape character. This important character-defining element must be maintained and enhanced. Backyard tree plantings are also important, as are hedges along many side yards.

Originally all houses had front lawns. In recent years this all important feature has been diminished with the introduction of front yard parking pads and wide, hard paved driveways. Many of these historical streetscape qualities remain, with obvious areas where the streetscape rhythm has been broken.

3.1.4. History

Main Street North was originally a residential neighbourhood, similar to many others that evolved across Ontario throughout the mid-19th century. In more recent times, the street has begun to transform into a retail/commercial district.

Key historical events that helped establish the Main Street North neighbourhood were the arrival of the railway in the mid 1850s, and the establishment of Brampton as the County seat in 1867. The street developed as Brampton began to grow and industrialize. A relatively affluent mix of working and middle class families began to emerge and houses were built to suit their needs. A mix of large, grand homes and more modest dwellings were built along the street over a 60-year period.

The close proximity of the Dale flower nurseries also had an influence on the development of Main Street North as a residential district. The Dale Estate was located at the corner of Main and Vodden Streets. A
