Subject: Re: [EXTERNAL]Bartley Bull Pwy

Rupinder, thank you. I had a good conversation with Jeff last night to express my concerns.

To eliminate the safety hazard with pedestrians crossing during high traffic, the current bus lane at the school should be widened and a drop off system adapted, like other schools, for better safety.

In current state, there will be accidents, and homeowners can not access their driveway.

Thank you. Tom

Hello,

I have a concern with respect to the excessive parking adjacent to William Davis school, during drop off and pick up. It's is a safety hazard, as well as cars blocking my driveway, prohibiting entertainment. Bartley Bull Pwy is a disaster for all the locals, especially if you live near the school.

Thank You. Tom Voduris
