**Subject:** [EXTERNAL]Committee of Council meeting November 17 in regards to fireworks

**Importance:** High

Hello I would like to thank you for that little video clip in regards to the Council meeting in regards to fireworks. A couple of things I picked up on, Mayor Brown would like to have a central location for fireworks you mentioned Chinguacousy Park. **I highly doubt that his plan would work for 2 things A added cost to the taxpayers of Brampton and B the people that witness this event and then go home and have their own fireworks to set off.** It was stated that there are only 4 days that you can legally let off fireworks while on November the 5<sup>th</sup> and 6<sup>th</sup> as well as the 11 Remembrance Day at 7 PM we had someone in the neighbourhood letting off fireworks and yesterday morning Sunday the 14<sup>th</sup> at 3 AM setting them off in the D section of Brampton. Where are my rights to have a peaceful night and a restful sleep! I have several questions, why is it the bylaw officers cannot go into stores and if they see fireworks that exceed the 10-foot limit in distance why are they not fined? Are all bylaw officers on duty when this situation happens? I also noticed on the Brampton website it states that fines go from anywhere from \$500-\$5000, tell me please how many people had received a \$5000 find I bet you no has! And another question why by-law never get back to the complainant a simple e-mail or telephone call? Since these people have no regards for the bylaws of Brampton this also includes handicapped parking, and parking on the streets it's the wild West. What I might suggest is a straight fine example \$3000, and none of this education ! The only way that these people who laff at the bylaws of Brampton is to hit them in the pocketbook, and if they have the money to buy all these fireworks, I think they could also afford a ticket! I'm just waiting for the guy around the corner to blow up his car! Ask your Fire Chief what happens when you charge a 2-car batteries in the confined space like the trunk of the car?
