Subject: [EXTERNAL]Re Fireworks

To city Clerk:

Thank you for this opportunity:

As we have said before we are in favour of communities to celebrate their cultural holidays.

Canadian residence have always celebrated holidays with fireworks, but it's always been done in the safest manner possible; in city parks by proper supervision.

The cost to the city to attend complaints, adding officers and police will eventually come from all residents taxes.

The disregard for neighbours rights to quiet use of property that has been demonstrated should not be allowed to continue.

I believe the current bylaw prohibits use of fireworks on public streets and sidewalks but falls short as the users are using their driveways.

These fireworks were some 30 feet 10 meters high and directed away from the users driveways out towards other properties. I myself had my bedroom lit up till 1am, not to mention the noise and smoke.

City council should ask themselves, we're did they get these fireworks.

Borders were closed, did they buy from Amazon?

Did the cultural leaders who were given licences distribute or sell boxes for use at home.

Someone had prior knowledge that this was going to happen.

So I ask who's to blame, the city for allowing this form of display?

I would ask city council to offer this community the opportunity to licence facilities such as parks to display their cultural tradition in a central location.

Having said that if private displays in neighbourhoods are again conducted a severe fine be imposed and I mean severe.

Thank You

Tony
