Hi Jeff:

Thanks for the email.

Please confirm if you wish this email thread to be provided to Council as correspondence at Wednesday's meeting in the morning - if so, we can add it to the meeting agenda at the start of the meeting, for Council's consideration.

The current Planning and Development Committee Recommendation before Council is in Item 12.3 on the agenda, specifically [Recommendation PDC197-2021](#).

Thanks and take care,
Peter

Hi Matt,

I am writing further to my email below.

Should City Council at its meeting tomorrow be considering endorsing the report discussed below, then Council should be aware that the concerns of the Region of Halton and Town of Halton Hills remain, and are unanswered. How is the City of Brampton continuing to ensure that the other components of the HPBATS Memorandum of Understanding remain protected as they integrate into the GTA West Corridor? This includes the protection of the East West Corridor which remains of critical importance to the Region of Halton and the Town of Halton Hills.

I ask that these concerns be brought to the attention of City Council.

I have copied City Clerks on this email.

Jeff

Hi Matt,

Thank you for circulating the City's report re restricting the City's ICBL to the MTO's GTA West Corridor Focused Area Analysis (FAA) Lands. Further to our discussion I am writing to you to advise of HPBATS concerns that remains unanswered by the City's report..

In reviewing the mapping, concern arises as to how the City of Brampton is continuing to ensure that the other components of the HPBATS Memorandum of Understanding remain protected as they integrate into the GTA West Corridor. In particular, concern arises regarding the protection of the East West Corridor which remain of critical importance to my clients, the Region of Halton and the Town of Halton Hills.

I have attached a copy of the Memorandum of Understanding, and reference the last page, being Schedule B.2 re the mapping.

Please advise Planning and Development Committee of these concerns. Thank you.

Jeff
