Hello there,

My husband and I live on _____ with our young daughter. We recently received a letter regarding developments that are being planned for where the former rec centre and child care were. We just wanted to submit our comments regarding this proposal.

We are delighted to hear about this proposal and as residents of this area, are in full support of the development of a rec centre and soccer field. This has been missed in the area and we will be excited to see it completed.

From _____, the project has our full support.

Sincerely,

Désirée and Jesse
