- 10.1 Discussion at the request of City Councillor Williams, re: Proposed Brampton Road Safety Committee

City Councillor Williams advised that she is the Chair of the Brampton Community Safety Advisory Committee. A Road Safety Advisory Sub-committee was established due to the traffic related accidents, concerns and complaints from residents. Further discussions on this matter resulted in the suggestion that a separate Road Safety Committee be established to work collaboratively with Peel Regional Police to address safety concerns as a whole by creating a strategy that results in solutions to make the roads safer.

Discussion on this matter included the following;

- Clarification that the proposed Road Safety Committee will be a stand alone committee
  - report directly to Council
  - operate separately from Brampton School Traffic Council and Brampton Community Safety Advisory Committee
- Suggestion that sharing information and a collaborative approach with all committees and agencies involved with road safety including the school community will work best to address overall safety on the roads
- Indication that the Terms of Reference will establish the mandate and parameters for the committee

There was consensus from Committee to support the motion as proposed. The following motion was considered:

### **SC020-2022**

Whereas the City of Brampton continues to experience injury related and fatal collisions amongst road users.

Whereas Vision Zero can be summarized in one sentence: No loss of life is acceptable.

Whereas in June 2019 the City of Brampton Council adopted the Vision Zero framework as the foundation to ensuring that our roads are safe for all that use them through a data-driven effort by prioritizing emphasis areas, coordinating with partners and stakeholders to improve road safety and implementing new or expanded safety countermeasures.

Whereas in September 2020 the City of Brampton Council implemented the use of Automated Speed Enforcement (ASE) cameras to decrease speeding in all community safety zones.

Whereas on December 10, 2020 the City of Brampton Community Safety Advisory Committee established a Road Safety Advisory Sub-Committee to address traffic related fatalities and speeding.

Whereas despite efforts to reduce speeding and traffic related collisions the Region of Peel is still reporting a substantial number of traffic related collisions on our Brampton roads.

Whereas the City of Mississauga currently has a Council appointed committee to address road safety issues and the City of Brampton does not.

Whereas a Brampton Road Safety Committee will align core goals and mission with the Vision Zero Task Force and the Regional Community Safety and Well-Being framework.

Therefore be it resolved that

It is the position of the Brampton School Traffic Safety Council to endorse the establishment of a Council appointed Road Safety Committee at the City of Brampton beginning the new term of Council 2022.
