1. While in situ retention is always preferable it is not always the most viable or practical option to ensure the retention of heritage resources. To facilitate the retention and preservation of the Edwin Trimble House while allowing for the continued development of the area it is recommended that Edwin Trimble House be relocated to proposed lot 59 or 60 of the proposed development plan (Appendix B). Relocation of the house should include:

1. Continued visibility from Creditview Road and George Brown Drive; development should not be permitted that would obstruct the view of Edwin Trimble House.

2. Any alterations to the Edwin Trimble House should be limited to the rear of the structure.

3. Setbacks should be maintained that preserve the aesthetic of the residence.

4. New construction adjacent to the Edwin Trimble House should not exceed the current elevation of the extant structure.

5. The establishment of a heritage easement should be discussed with the City of Brampton to ensure the ongoing retention of Edwin Trimble House.

6. Designation under Part IV of the *Ontario Heritage Act* should be considered.

7. Edwin Trimble house shall be subject to structural assessment by a qualified structural engineer familiar with heritage structures

8. Prior to undertaking any action, a conservation and adaptive reuse plan should be developed.

2. In addition to the retention of Edwin Trimble House, development of the Subject Property should attempt to retain the mature pine trees that delineate the northeast limit of the property. These trees contribute to the Creditview Road Corridor CHL. If possible, Edwin Trimble House and the pine trees should be maintained together on a single lot.
