**Jason Schmidt-Shoukri,
Commissioner, Planning, Building & Economic Development**

**Subject: City of Brampton Official Plan Conformity Review
Public Input – Draft New City of Brampton Official Plan
21 Queen Street East, City of Brampton
Amexon Developments Inc.**

Gagnon Walker Domes Ltd. ("GWD") is agent to Amexon Developments Inc. ("Amexon"); the registered owner of the property municipally known as 21 Queen Street East in the City of Brampton ("subject site"). The subject site is located at the "Four Corners" of Downtown Brampton and is developed with a 9-storey office building.

EXISTING LAND USE DESIGNATIONS OVERVIEW

2006 City of Brampton Official Plan

The current 2006 City of Brampton Official Plan ("BOP") designates/identifies the subject site as follows:

- 'Central Area', 'Anchor Mobility Hub' (Schedule 1 - City Concept);
- 'Urban Growth Centre' (Schedule 1A – Urban Growth Centres);
- 'Central Area' (Schedule A - General Land Use Designations).

The City's designated Central Area, including the Urban Growth Centre, serves as the major location for free-standing or mixed-use development including a full range of:

- Residential;
- Office, Retail and Service Activities; and
- Entertainment, Institutional and Cultural Uses.

2019 Downtown Brampton Secondary Plan

The subject site is also located within the Downtown Brampton Secondary Plan Area, which designates/identifies the subject site as follows:

GAGNON WALKER DOMES LTD.

21 Queen Street East, Suite 500 • Brampton ON Canada L6W 3P1 • P: 905-796-5790
3601 Highway 7 East, Suite 310 • Markham ON Canada L3R 0M3 • P: 905-477-6556
www.gwdplanners.com • Toll Free: 1-855-771-7266

- 'Central Area Mixed-Use' Land Use Designation;
- Density: '3.5 FSI'.

Permitted uses within lands designated Central Area Mixed-Use in the Secondary Plan include any combination of:

- Commercial, Retail, Office;
- Residential;
- Hotel, Entertainment, Institutional and Cultural Uses.

Notwithstanding the identified permitted density of 3.5 FSI, pursuant to the Secondary Plan developments that exceed the identified density permissions shall be permitted without an amendment to the Secondary Plan, subject to the approval of a site specific Zoning By-law Amendment.

DEVELOPMENT PROPOSAL/ FORMAL AMENDMENT APPLICATION

Amexon is currently in the process of preparing a formal Concept Plan for the conversion or full redevelopment of the subject site for high density residential and mixed use.

It is anticipated that a Pre-Application Consultation submission will be submitted to the City in Q3 of 2022.

BRAMPTON OFFICIAL PLAN CONFORMITY REVIEW/ NEW "BRAMPTON PLAN"

The purpose of the City of Brampton Official Plan review is to achieve Official Plan conformity with the new Region of Peel Official Plan ("ROP") that was recently adopted by Regional Council on April 28, 2022 (pending approval by the Ministry of Municipal Affairs and Housing) and Provincial Plans.

Recently, on April 26, 2022, the City of Brampton released the draft new City of Brampton Official Plan ("Brampton Plan") for public review and comment. The City has since requested that public comments and concerns on the draft Brampton Plan be provided by June 3, 2022. It is understood that the new Brampton Plan is targeted for final adoption by the City Council on July 6, 2022.

In consideration of the extent of the proposed Official Plan policy updates and the impacts that the new proposed policy framework may have on residents, businesses, employees and various landholders, it is our opinion that the short 71 day review period provided to the general public is insufficient and does not represent meaningful and appropriate public consultation. Given that the *Planning Act* does not require that the City of Brampton proceed to final consideration of the draft Brampton Plan in such a truncated fashion, it is only appropriate that stakeholders be provided with additional time to review the draft policy framework and work with City Staff to discuss their questions or concerns in effort to have them addressed, where deemed appropriate, prior to final City of Brampton Council consideration. We do not believe the review, comment and consultation period that has been provided is sufficient.

- **Proposed Process Modification:** City Council defer its consideration of a final Recommendation Report on July 6, 2022 to Q3/Q4 2022 to provide additional time and opportunity for stakeholders with an identified interest to discuss identified policy concerns with City/Regional Staff and have revised draft policy issued, where appropriate, prior to final Council consideration of the Brampton Plan.

DRAFT NEW “BRAMPTON PLAN” LAND USE DESIGNATION OVERVIEW

The following are some of the key designations and overlays of the draft Brampton Plan that are proposed to apply to the subject site:

- **Schedule 1 - City Structure:**
 - ‘Urban Centre’;
 - ‘Neighbourhoods’;
 - ‘Primary Urban Boulevards’ / ‘Corridors’ (Queen Street);
- **Schedule 2 - City-Wide Growth Management:**
 - ‘Urban Centre’;
 - ‘Primary Major Transit Station Areas’;
- **Schedule 4 - Provincial Plans & Policy Areas:**
 - ‘Urban Growth Centre’;
- **Schedule 5 – Designations:**
 - ‘Mixed-Use Districts’.

AMEXON CONCERNS WITH DRAFT NEW “BRAMPTON PLAN”

Based on our preliminary review of the draft Brampton Plan, the following are Amexon’s comments and concerns. Recommended policy redlines are included in Appendix 1.

A. General Concerns

Applicability of Brampton Plan:

- Policy 1.1.7.b) reads, “*Land uses and designations approved prior to the implementation of Brampton Plan, as well as uses legally in existence prior to the implementation of this Plan, will be permitted to be established and continue without an amendment to the Brampton Plan.*”

Policy 3.1.91 states, “*Planning and development applications filed after the adoption of Brampton Plan by Council and prior to the approval of this Plan by the Region will be encouraged to work with the City to consider the implications of the policies of Brampton Plan as they relate to the proposed application.*”

The City should consider a transition clause(s) for those in-process development applications submitted prior to the final enactment of the Brampton Plan.

- **Required Policy Clarification:** Please provide clarification on the above noted policies including an explanation of how the City intends on addressing

development applications that have been submitted to the City in advance of City Council approval of the new draft Brampton Plan and/or in advance of Region of Peel approval.

Additional and/or revised comments may be provided depending on the municipal response to the above.

B. City Structure

Part 2.1 of the Brampton Plan outlines the proposed City Structure which consists of the City-Wide Growth Management Framework and Mobility Framework. The City-Wide Growth Management Framework, as identified on Schedule 2, is comprised of 'Centres', 'Boulevards', 'Corridors', 'Neighbourhoods', 'Employment Areas', and the 'Natural Heritage System'.

Neighbourhoods:

- Policy 2.1.2.d reads, *"Neighbourhoods reflect new and existing lower-scale residential, commercial and institutional areas of Brampton..."*.

Policy 2.1.6 reads, *"Neighbourhoods will be planned at a lower-scale than Centres, Boulevards and Corridors, and will accommodate the lowest density and building heights while providing a full range and mix of housing options."*

Policy 2.1.21 reads, *"Intensification in Brampton will be accommodated, subject to the policies of this Plan by...Promoting gentle intensification in Neighbourhoods..."*

The above noted policies are contrary to the Brampton Plan's intended Growth Management Framework. More specifically, the City's various Major Transit Station Areas ("MTSAs") and Urban Centres are delineated in the new Brampton Plan, within which the underlying Growth Management Hierarchy is substantially comprised of the City's Neighbourhoods. As a result, many of the Centres and MTSAs, where the tallest buildings in the City are to be directed, are also identified as being within the City's Neighbourhoods where "lower-scale" uses are to be reflected.

- **Proposed Schedule Modification:** Schedules 1 and 2 be modified to remove Neighbourhoods from the delineated limits of the Urban Growth Centre, Urban Centres and MTSAs to remove this built form conflict within the City Structure and City-wide Growth Management Framework, and to clearly distinguish these areas based on their position as high intensity growth areas within the City Structure.

C. Secondary Plan, Precinct Plan, MTSA Plan and Area Plan:

Planning Process Prior to Implementation

- Policy 2.1.33.c) identifies that *"Where a City-initiated study of a Major Transit Station Area has not been initiated or approved by way of an amendment to Brampton Plan, the City may require the coordination of development applications between applicants, by way of a Secondary Plan and/or Precinct Plan at the cost of the applicant. The Secondary Plan and/or Precinct Plan will be subject to the applicable policies of the*

overlapping Centre or Boulevard, or other similar approaches to ensure an orderly, coordinated, and phased approach to the provision of Civic Infrastructure prior to or coincident with development.”

Policy 2.1.49 reads, *“Where a Secondary Plan does not yet identify the location of Precincts, Precinct Plans will be required with the submission of any Draft Plan of Subdivision and/or significant Zoning By-law Amendment application within Centres, Boulevards, and with frontage onto Corridors to the satisfaction of the City and Region of Peel before approval of the application, in accordance with the policies of Part 2.2 and Chapter 3.”*

Policy 2.3.37 directs that Tall Plus buildings (buildings over 25 storeys) will only be permitted where they are identified in a City-initiated Secondary Plan and/or Precinct Plan.

Policies 3.1.52 through 3.1.58 deal with the requirement and context of Precinct Plans as part of submitted Draft Plan of Subdivision, Official Plan Amendment and/or Zoning By-law Amendment Applications.

Policies 3.1.59 through 3.1.65 deal with the requirement and context of Area Plans as part of complete planning applications.

Policy 3.1.66 deals with the requirement and context of a Primary Major Transit Station Study.

Secondary Plans, Block Plans and/or MTSA Plans, where required by the City of Brampton, should not be at the cost of development proponents. The scope of these exercises within the urban Built-up Area, which may involve many landowners, should be borne by the City of Brampton, unless these pre-existing plans are being amended on a site specific basis through individual Amendment Applications.

Draft Brampton Plan Policy 2.2.53 directs that existing Secondary Plans, or MTSA Plan studies will provide more specific direction for each distinct Mixed-Use District. In the case of the subject site, it is our opinion that the existing Downtown Brampton Secondary Plan provides sufficient land use policy direction to advance a residential and mixed use redevelopment on the subject site without the need for additional Secondary Plan, Precinct Plan, MTSA Plan and Area Plan approvals.

The majority of the lands located within the City's Primary and Planned MTSAs, Centres and the Urban Growth Centre do not currently have Precinct Plans.

Further, it is our opinion that the proposed multi-faceted approval process for the redevelopment of sites within the City's Strategic Growth Areas, which may include upwards of four (4) additional studies/plans to be approved through a public consultation process prior to Site Plan Approval, is excessive and unnecessary and will severely delay the facilitation of residential uses in the midst of an identified Housing Crisis as well as postpone the delivery of new jobs.

- **Proposed Policy Modification:** Chapter 4 be modified to include a new Site and Area Specific Policy to exempt the subject site from additional Secondary Plan review and the approval of a Precinct Plan, MTSA Plan and Area Plan. Alternatively, Policies 2.1.33.c), 2.1.49, 2.3.37, 3.1.52, 3.1.54, 3.1.57, 3.1.63, 3.1.64, be deleted or amended as set out in Appendix 1 of this letter.

D. Land Use Designations

Mixed-Use District Designation:

- The subject site is proposed to be designated 'Mixed-Use Districts' on Schedule 5 of the draft Brampton Plan. Lands designated Mixed-Use Districts are associated with those lands identified as Primary MTSA's on Schedule 2 of the Brampton Plan. The Mixed-Use Districts designation is intended to accommodate a diversity of functions, a higher density of development, a greater degree of mixed uses, and higher level of transit connectivity than those areas outside Mixed-Use Districts.
- Table 4 identifies the built form typologies permitted within the Mixed-Use District designation. More specifically, according to draft Table 4 lands designated Mixed-Use Districts are restricted to "Low-rise" buildings no higher than 3 storeys, unless a MTSA Study is conducted which identifies the permission for up to Tall Buildings (buildings no higher than 25 storeys).

The built form restrictions of Table 4 are inconsistent with the existing built form permissions in the applicable Secondary Plan which permits tall buildings up to and beyond a density of 3.5 FSI. The proposed new building height restrictions of draft Table 4 represents a significant reduction to current as-of-right permissions and current built conditions. It is our position that this building height restriction is not consistent with the Provincial Policy Statement and does not conform to the Growth Plan, which generally direct high intensity redevelopment and intensification to the Urban Growth Centre, and MTSA's along Priority Corridors.

The determination of building heights for lands located within the Mixed-Use Districts designation should be determined on a case by case basis through the review of existing Secondary Plan Policy and site specific development applications.

- **Proposed Policy Modification:** Table 4 be modified to permit the full range of building typologies for the Mixed-Use District designation.

E. Built Form

Tall Buildings

- Policy 2.3.36 sets out built form policy for tall buildings including the requirement that a minimum of 25 metres be provided between towers.

This policy elevates urban design considerations to Official Plan policy which does not provide sufficient flexibility to allow for deviations to the minimum tower separation distance where deemed appropriate. Final tower separation distances should be included within site specific zoning by-laws.

- **Proposed Policy Modification:** Modify Policy 2.3.36 to encourage a 25 metre separation distance between towers and/or allow deviations on a case-by-case basis without the need for an amendment to the Brampton Plan.
- Policy 2.3.48 directs that the “Review for all Design Priority Areas and Tall Building developments by the Urban Design Review Panel is required for compliance with the Brampton Plan and City-Wide Urban Design Guidelines...”

The City’s Urban Design Review Panel are neither the approval authority, elected municipal officials nor City employees. The role of the Urban Design Review Panel, and its members, is to provide design opinion and guidance to municipal Staff in review of development applications. Compliance of a tall building proposal with the Brampton Plan and/or City-wide Urban Design Guidelines is not to be determined by the City’s Urban Design Review Panel, but rather is the role and responsibility of City Staff and ultimately City Council.

- **Proposed Policy Modification:** Delete Policy 2.3.48.

F. Housing

Housing:

- Policies 2.3.257 and 3.1.85 direct that development applications will be required to submit a Housing Assessment Report/Housing Analysis, to be approved prior to approval of any Secondary Plan, and any Secondary Plan amendment, Precinct Plan or Phasing Plan.

It is recommended that these policies provide flexibility to exempt development proposals from the requirement of a Housing Assessment Report/ Housing Analysis, where deemed appropriate in the consideration of the location, scale and type of application being filed and where sufficient information is available to inform its purpose.

- **Proposed Policy Modification:** Replace the word “will” with “may” in reference to the preparation of a Housing Assessment Report/Housing analysis to provide flexibility to only require it to be provided when necessary and appropriate.
- Policy 3.1.77 directs that new developments with a minimum of ten residential units may be required to satisfy the inclusionary zoning policies of the Brampton Plan.

This policy is not sufficiently clear to identify that it will only apply to those developments of ten residential units or more where stipulated through a future inclusionary zoning amendment and By-law. Clarification should be provided in the policy. Additionally, the threshold for the applicability of this inclusionary zoning policy of ten residential units is inappropriately low and should be increased to a minimum of at least 50 residential units to reflect the limitations and financial challenges that small infill developments with less than 50 residential units are faced with.

- **Proposed Policy Modification:** Policy 3.1.77 be modified to increase the threshold for the applicability of inclusionary zoning to a minimum of 50 residential units and clarify that the policy is only applicable to new developments required to provide inclusionary zoning pursuant to the Planning Act.

FINAL COMMENTS AND RECOMMENDATION

We request that City Staff meet with Amexon and its core consulting team at its earliest opportunity to discuss the concerns as outlined herein.

As noted above, we believe additional consultation is required and that a final Recommendation Report should not be prepared or considered by City Council on July 6, 2022 in order for City Staff to properly consider and further discuss Amexon's concerns.

Amexon reserves the right to provide additional/revised comments based on the City of Brampton and/or Region of Peel response to the concerns identified herein and any further reports/studies or draft Official Plan Amendments produced in connection with the draft Brampton Plan.

By way of this correspondence, we also respectfully request to be notified in writing of any and all future informal Open House and Statutory Public Meetings, as well as the tabling of Information and/or Recommendation Reports to Planning Committee/Council related to draft Brampton Plan/ Official Plan Review exercise; including all Notices of Decision.

Yours truly,
