Good afternoon,
My name is Eliza Imran and I live at Coach House Court, in the area of Wychwood in Brampton. I'm coming to you with a concern of mine. I was aware of the proposal of the new subdivision that is to be built right in between Creditview and Walnut road and would like to ask if there was anything I, or the individuals in my neighbourhood could do to have this proposal rejected. The reference number is ozs-2022-0021. The address of the possible future area of construction is 8265 Churchville Rd.

I believe that I have many good reasons supporting my opinion on this matter; why this subdivision should not be built. To briefly explain, we were promised by the original builders of our homes that no change would come to this area after our houses were built, there would be so much disturbance to our small community (i.e. traffic, noise pollution, dirt and debris), the wildlife of our area is being disrupted, slight overpopulation in this environment seeing as there has been an excessive amount of new construction over time and so many more proposals being offered, and the biggest concern, the nature is being almost completely disregarded.

I personally believe that it is pointless to build this new subdivision and many of my neighbours, given these reasons, would agree as well. Again, I would like to ask if I could get a petition signed or do anything else to prevent this subdivision from being built and I would really appreciate it if you could let me know as soon as possible. Please let me know if you need any more information regarding my opinion or if you'd like me to list the rest of my reasons as well.

Thank you for your time,
regards,
Eliza Imran
