To whom it may concern,

I am expressing concern over development of high density townhomes city file : OZS-2019-0014

Our local schools are already at full capacity with kids being housed in portables. My kids have to take a 25 min bus ride to get to school even though there is a new school 5 mins away. The city of Brampton should be accountable for such poor planning and should be attempting to accommodating existing families in the area instead of accepting contracts from builders.

I would prefer this neighborhood be limited to single detached homes. In additions, I have paid a large amount of money for my home and pay over \$12,000 in property tax. This area is zoned for single family detached homes that have a certain value attached to it due to location. High Density Townhomes are not a fit in this area. Lets focus on families who are living in the area and protect the value of our homes and schools.

Thank you

Paul Banwait

Sincerely
