Subject: [EXTERNAL]Centennial Mall proposal

Caution: This email originated from outside the organization. Do not click links or open attachments that you do not trust or are not expecting.

To whom it may concern,

I am a homeowner on Tindale Road and I am adamantly against the tearing down of Centennial Mall and more so against the construction of 14 buildings in this area. The area of Madoc is already congested and I don't believe that the upsurge in our population would benefit us in any way. I am mostly concerned with the education our children would receive if our schools were suddenly over populated, the traffic and accidents would also worsen due to the fact that both Vodden and Rutherford are one lane roads. We moved to this area 5 years ago to start our family in a quiet and family oriented neighbour hood. The proposed construction would possibly force us to move as we would have no privacy in our backyard since one of the buildings is expected to be 33 stories. I cannot stress enough how against this I am. Please take this into consideration. The future of this neighborhood would be a grim one if this proposal is accepted

Sincerely,

Karla Bravo

A concerned resident
