Dear Jeanie,

Please note that I live in front of the property in question.

I'm writing in regards to application #A-2022-0243 Ward 4, for the so-called Minor Variation of extending the original driveway of

1 Massina Ave, Brampton.

I strongly object to the modification done on this property.

Please note down my reasons for that as follows.

1. Driveway was modified without taking prior permission from the city of Brampton, which is actually a violation of the city zoning laws.
2. Neighbours were not notified for the consent before construction of this project.
3. Such modification spoils the and tarnishes the beauty of our neighbourhood diminishing the green space.
4. House is extensively modified to accommodate the tenants and their vehicles.
5. Excessive vehicles movement in and out of the driveway pose a risk of safety for the people living in the neighbourhood.

Please submit these comments to the hearing committee,

I hope it will be considered and the decision will be made to honor the input I have provided.

Regards and Thanks
