Good Morning Mr. Kidd

Thanks for your email. We can keep you engaged on this application in a number of ways. The first is our public information report ...which is scheduled for the September 12 Planning & Development Committee. This report along with the studies (including the arborist report and tree preservation plan) will be made public prior to Sept 12. After the public meeting... Alex can keep you apprised on the status of the application as it continues through our technical analysis and review... leading up to a future recommendation report. I've also copied Regional Councillor Dhillon on this email for his awareness of your enquiry.

Alex – by copy of this email...can you please ensure that Mr. Kidd receives copy of the notice for the public meeting and links to BramPlan Online to review relevant information of this application.

Regards,

Steve

Councillor Singh and Steve,

Thank you very much for your replies.

Is it possible to see your recommendation report once it is complete?

Thank you.

Jim Kidd

Good Afternoon Councillor Singh and Jim:

Thanks for your enquiry. I noticed an arborist report and tree preservation plan has been submitted with this application. My staff (Alex Sepe – Planner on this file) will review in consultation with Michael Hoywhich will be considered in our final recommendation report.

Regards,
Steve

I agree about the trees. I'm cc'ing our main planner for this application and Michael Hoy from our environmental department. I will keep an eye on this as well.

The trees look absolutely beautiful.

Hi Councillor,

I wondered if you may be able to answer a concern or whether the planning folks can. I've attached a picture below regarding this proposed development.

There beautiful mature trees at both the west and south sides of this proposed development, is saving these trees a possibility??

Look forward to hearing from you.

Thank you.

Jim Kidd.
