Hi I am letting my voice be heard about this proposal of the 24 semi detached homes ,I disagree with the semis being built , I have lived in this area since the beginnning in 1998 /1999, we are long time residents that have enjoyed a quiet peaceful neighbourhood. These semis are too much they would bring an increased amout of cars & traffic to this area causing much stress to all drivers at the intersection of Torbram rd & Steeplebush ave / opposite side Eagleridge drive. This is our neighborhood we are tax payers you Mr.Alex I hope will listen to what we want. I believe a few single dwelling homes would be ok NOT 24 semi detached homes .I am preparing a hand written petition to go out into my community to see what residents feel, our voices have to be heard . I will send you a photo of the petition. Thanks
