Caution: This email originated from outside the organization. Do not click links or open attachments that you do not trust or are not expecting.

I live directly across the street from the above residence, I am at 26 they are at 13 Sawston Circle.

There is already 7 people living in the residence, parents. Daughter or son with their spouse, 2 young children and a sister who is still at high school. They have already several cars parked on their driveway and sometimes bring home their business truck.

For them to add renters to the mix will cause problems with parking additional cars.

We already have a home next door to us where there are renters in the basement, and have had issues with parking up to 3 additional cars when the owner himself as 2 cars and a truck.

We are suppose to be a single dwelling designation and to have 2 homes so close to us with additional persons renting the units is very unfair to us as taxpayers. Cars will end up being on the street infront of our home, snow plows already have issues getting through in the winter because of additional vehicles parked on the street. As we are on a cul de sac Parking authorities rarely come by.

I very much appose this application for minor variance as it will be a detriment not only to me but to other neighbors near by.
