BRAMPTON

Good afternoon Jeanie and François,

We would like to formally request a deferral for the above-noted application at the scheduled October 25th, 2022 Committee of Adjustment hearing. The initial deferral request for this Minor Variance application (City File: A-2022-0158) at the May, 2022 Committee of Adjustment hearing was pursued to satisfy staff's request of updating the site's Parking Study which was previously prepared. The traffic consultant who is updating the Parking Study has advised that the report will be ready for review in late October, 2022.

In order to give staff adequate time to review the updated Parking Study, we would like to request staff defer the application from the October 25th, 2022 Committee of Adjustment hearing to the next available hearing date.

Please do not hesitate to contact us if you require anything further or wish to clarify anything contained in this application
