After greetings,

Thanks for the information and updates.

I am interested in committee meeting to participate on 25th of July 2022. I tried on telephone and left a voice mail, regarding required presence.

Please inform and requested to add me. Thanks.

The following thinks to do before the developer start to build the town house projects are,

1. Mayfield/McLaughlin road is in now single line. should be widen and make easy traffic flow and left line to clear passage and improving stop lights signals.
2. Mayfield/McLaughlin south also a single line now. Need to upgrade At least 2 lines for straight traffic and 1 line to go town house. Required 3 lines.
3. Town house project fire routes are not mentioned clear in the drawing. should care with standard specifications. Think entire house have one entry /exit. (Not sure)
4. This only part may struct entire traffic flow of Mayfield/McLaughlin south, Difficult for Safety flow.

This are my and my neighbor's concern,

Thanks. Awaiting to explain to the committee for the future action.

Mansoor Ameersulthan.
