City of Brampton

Re: 9445 Clarkway Blvd, (OZS-2022-0019) Public Meeting Submission-Petition in support of New BARIC Centre Project.

Respected Mayor,

My family and friends have been residents of Brampton East for over 15 years. We all are house owners and have been paying taxes since residing and have been model citizens and pillars of the community in these 15 years.

The community has grown significantly along with various religious communities and places to worship. Therefore, it is important that we invest our future in our children and guide them to become pillars of the community through our teachings in school and Mosque. The problem lies in that this can no longer be done in the space that is currently available to us, and it is only with the support of local residents that we can hope to expand. It is my hope that the Zoning Board will approve our place and give the Muslims of East Brampton the chance to give back to a community that has supported us for so long. We Muslims have a very rich history of building great communities for all the difference races and religions and having a biggest Mosque in the community will assure that we provide. The large Mosque with all the facilities will assure the children stay in the community and stay away from trouble. In the past 15 years, Brampton has approved various larger religious worship temples allowing the other communities to build foundation for the children and to ensure kids stay away from troubles.

Your support is extremely important to establish a Complete Islamic Centre for the Muslim community including our future generations.

Thank you,

Rafiq Ahmed
