To: Planning, City of Brampton

I am writing this email in support of the Brampton and Regional Islamic Center (BARIC). We have a large community in the area that has a demand and desire for this Center. This location is physically convenient for elders and kids and would add great value to their lives.

Please be advised there is an ample president set for such religious and community centers in Brampton and all of them are well taken care of and provide stability for the residents in the area. This only helps the communities come together and live as Canadians. I urge the planning to allow this.

Should you have any questions, please contact me.

Regards,

Saadi Farooq, CPA/MBA/CFE
