Subject: [EXTERNAL]proposed towers downtown Brampton

Dear Mr. Caruso,

I am a resident of a condo building located at 9 George St North, downtown Brampton. We have received a notice of an application to build 2 high rise buildings (34 & 42 storeys) directly to the north of our building.

If this project is allowed to happen, we will be affected in the following negative ways:

- lost and blocked view of all residents
- loss of privacy from our balconies and unit interior (some units will be meters from new build according to plans)
- condos will be in a shadow from these buildings for most of the day
- wind tunnel created will be significant
- tremendous increase in traffic of cars, trucks, people in an already condensed area
- significant decrease in value of our units

Please do not allow these plans to go ahead as planned.

Thank you for your attention.

Regards,
Tracey Maggs
