

**APPLICATION # B-2022-0014**  
**Ward # 3**

**DEFERRED NOTICE OF AN APPLICATION FOR CONSENT**

An amended application for consent has been made by **MEHNA AUTO SALES INC.**

**Purpose and Effect**

The purpose of the application is to request consent to sever a parcel of land currently having a total area of approximately 0.063 hectares (1.55 acres). The proposed severed lot has a frontage of approximately 7.93 metres (26 feet), a depth of approximately 37.27 metres (122.28feet) and an area of approximately 0.029 hectares (0.073 acres). The effect of the application is to create two individual lots from the existing lot for future residential development of a new semi-detached dwelling on each proposed lot.

**Location of Land:**

Municipal Address: 93 John Street

Former Township: Town of Brampton

Legal Description: Part of Lot 43, Plan BR-2, Part 4, Plan 43R-13441

**Meeting**

The Committee of Adjustment has appointed **TUESDAY, January 24, 2023 at 9:00 A.M. by electronic meeting broadcast from the Council Chambers, 4<sup>th</sup> Floor, City Hall, 2 Wellington Street West, Brampton**, for considering the application.

This notice is sent to you because you are either the applicant, a representative/agent of the applicant, a person having an interest in the property, or an owner of a neighbouring property. **OWNERS ARE REQUESTED TO ENSURE THAT THEIR TENANTS ARE NOTIFIED OF THIS APPLICATION. THIS NOTICE IS TO BE POSTED BY THE OWNER OF ANY LAND THAT CONTAINS SEVEN OR MORE RESIDENTIAL UNITS IN A LOCATION THAT IS VISIBLE TO ALL OF THE RESIDENTS.** You may attend the meeting in person to express your views about this application or you may be represented by an agent or counsel for that purpose. If you do not attend the meeting, a signed written submission shall be accepted by the Secretary-Treasurer prior to or during the meeting and such submission shall be available for inspection at the meeting by any interested person. If you do not attend the meeting, the Committee may proceed and make a decision with respect to this application in your absence. **WRITTEN SUBMISSIONS MAY BE SENT TO THE SECRETARY-TREASURER AT THE ADDRESS OR FAX NUMBER LISTED BELOW.**

IF YOU WISH TO BE NOTIFIED OF THE DECISION OF THE COMMITTEE OF ADJUSTMENT IN RESPECT OF THIS APPLICATION, YOU MUST SUBMIT A WRITTEN REQUEST TO THE COMMITTEE OF ADJUSTMENT. **This will also entitle you to be advised of a possible Local Planning Appeal Tribunal hearing. Even if you are the successful party, you should request a copy of the decision since the Committee of Adjustment Decision may be appealed to the Local Planning Appeal Tribunal by the applicant, the Minister, a specified person or a public body.**

**PLEASE SEE ATTACHED PARTICIPATION PROCEDURES REQUIRED DURING THE COVID-19 PANDEMIC**

=====

**LAST DAY FOR RECEIVING COMMENTS: JANUARY 19, 2023**

=====

**NOTE:** IT IS LIKELY THAT COMMITTEE MEMBER(S) WILL CONDUCT A SITE INSPECTION RELATED TO THE APPLICATION PRIOR TO THE MEETING.

**Other Planning Act Applications**

The land which is the subject of the application is the subject of an application under the *Planning Act* for:

Official Plan Amendment:	NO	File Number:
Zoning By-law Amendment:	NO	File Number:
Minor Variance:	YES	File Number: A-2022-0320 and A-2022-0321

**Decision and Appeal**

Any person or public body may, not later than **20 days after the giving of the notice of decision**, appeal the decision or any condition imposed by the Committee of Adjustment or appeal both the decision and any condition to the Ontario Land Tribunal by filing with the Secretary-Treasurer of the Committee of Adjustment a notice of appeal, accompanied by the fee prescribed under the *Ontario Land Tribunal Act, 2021*. The appeal form is available from the Environment and Land Tribunals Ontario website at <https://olt.gov.on.ca/appeals-process/forms/>

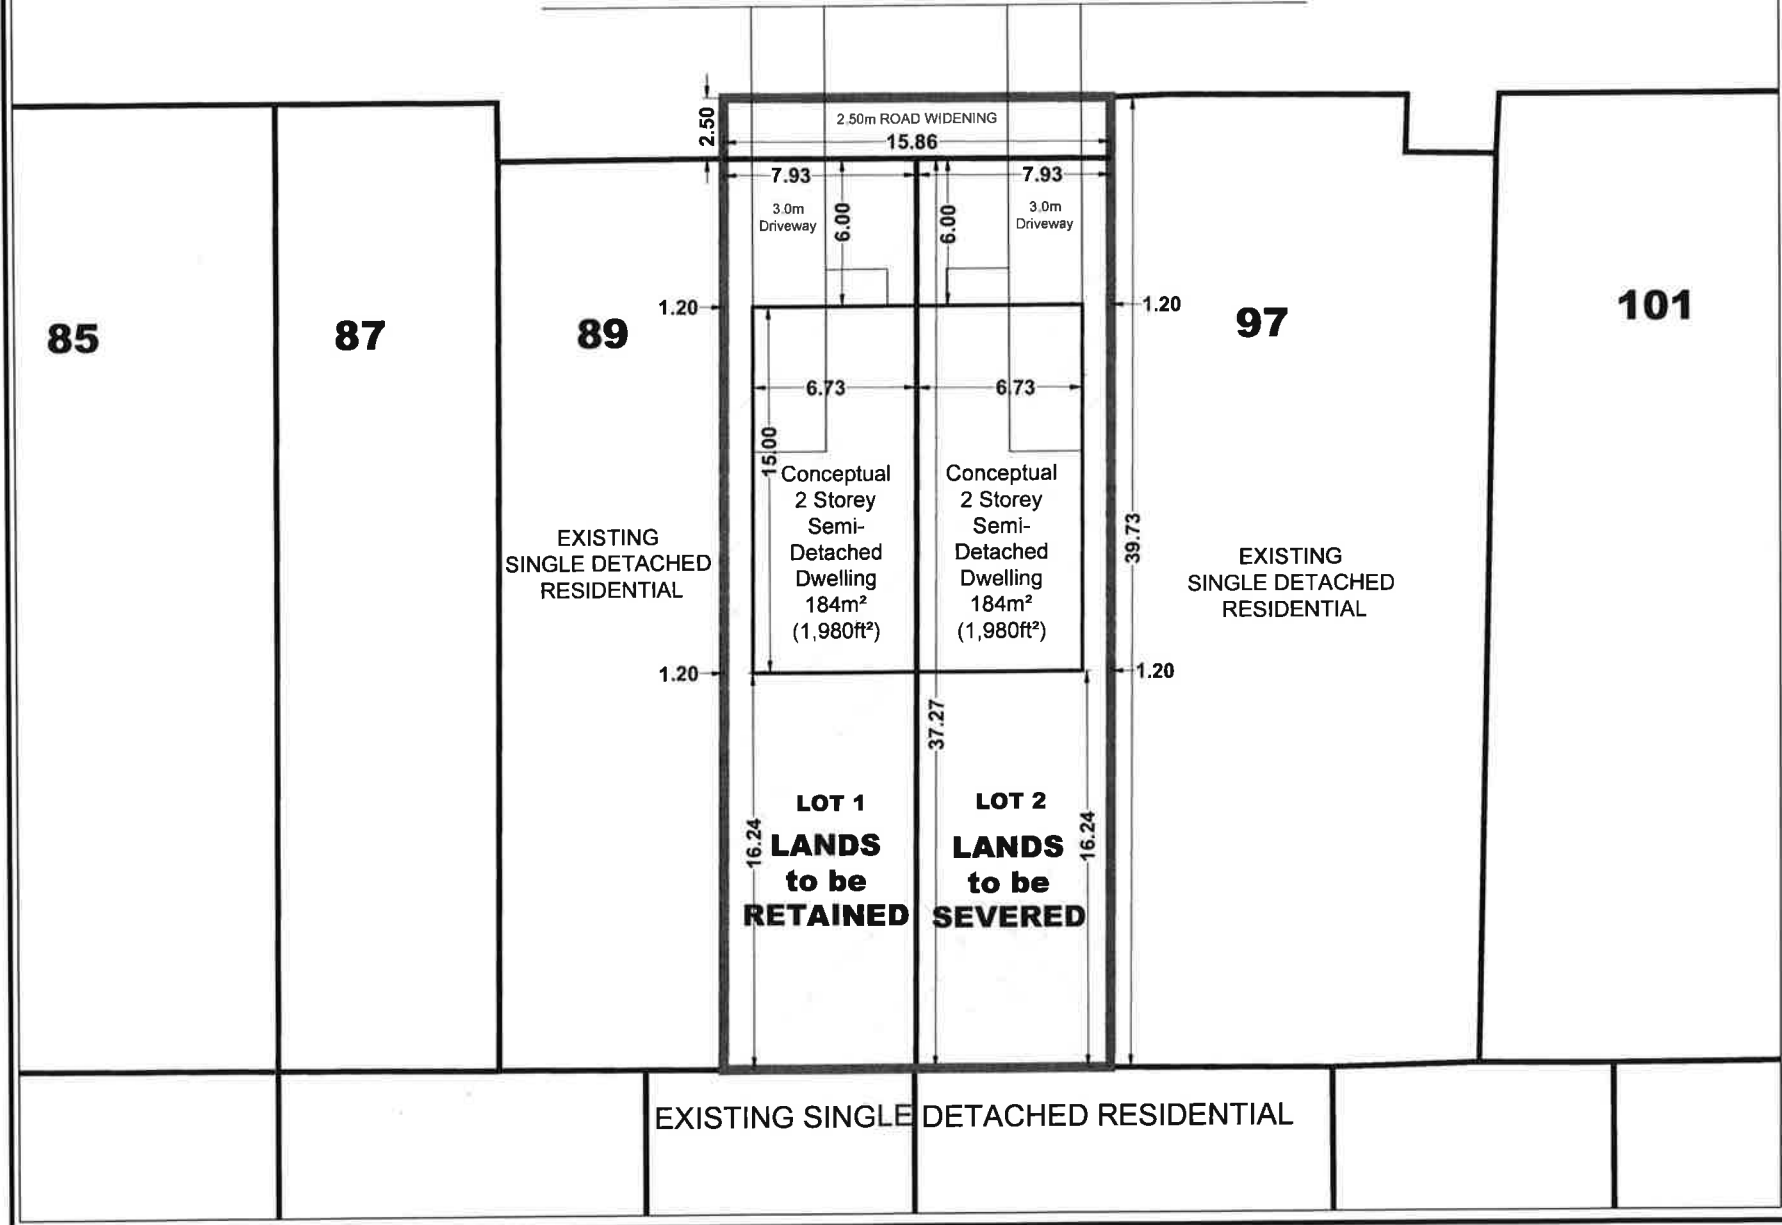

If a person or public body, that files an appeal of a decision of the Committee of Adjustment in respect of the proposed consent, does not make a written submission to the Committee of Adjustment before it gives or refuses to give a provisional consent, then the Local Planning Appeal Tribunal may dismiss the appeal.

DATED AT THE CITY OF BRAMPTON THIS 5th Day of January, 2023.

Comments may be sent to and information may be obtained between 8:30 a.m. to 4:30 p.m. Monday to Friday from:

**Dear Jeanie:**

Gagnon Walker Domes Ltd. (GWD) represents Mehna Auto Sales Inc. (Gagandeep Singh Gill), the Registered Owner of 93 John Street in the City of Brampton (hereinafter referred to as the subject site).

Concurrent with the Consent to Sever Application for the subject site, two (2) associated Committee of Adjustment Minor Variance Applications were submitted to the City of Brampton on September 27, 2022, seeking relief from the Zoning By-law in order to permit the development of two (2) new single detached residential dwellings on both the Retained and Severed lands.

On October 25, 2022, in consultation with City of Brampton Planning Staff, Committee of Adjustment Applications B-2022-0014, A-2022-0320, and A-2022-0321 were deferred by the Committee of Adjustment to no later than the last Committee of Adjustment Hearing of January 2023. In working with City Staff, the minor modifications made to the proposal necessitated the reissuance of the Public Notice. The deferral allowed for sufficient time for this to occur.

Further discussion was had with City of Brampton Planning and Heritage Staff on November 7, 2022 regarding the above-mentioned Committee of Adjustment Applications. The Consent to Sever and Minor Variance Plans have been updated to reflect the following:

**CONFIDENTIALITY  
CAUTION**

This document is Consultant-Client privileged and contains confidential information intended only for person(s) named above. Any distribution, copying or disclosure is strictly prohibited. If you have received this document in error, please notify us immediately by telephone and return the original to us by mail without making a copy.

1. A 2.50m Road Widening;
2. A 2-storey Semi-Detached Dwelling is now proposed which is to occupy both the Severed and Retained Lands with a G.F.A of approximately 184m<sup>2</sup> (1,980 ft<sup>2</sup>) and an approximate height of 8.5m;
3. The proposed Semi-Detached Dwelling has been shifted slightly southward on the subject site;
4. An Interior Lot Area of 0.029 ha (0.073 ac); and
5. A Minimum Rear Yard Depth of 16.24 m (53.28 ft).

The requested variances for both Minor Variance Applications have been amended as follows:

1. To permit a semi-detached dwelling unit whereas the Zoning By-law does not permit a semi-detached dwelling unit within an R1B zone;
2. To permit a minimum lot area of 290m<sup>2</sup> whereas the Zoning By-law requires a minimum lot area of 450m<sup>2</sup>; and
3. To permit a minimum lot width of 7.90m for an interior lot whereas the Zoning By-law requires a minimum of 15.0m for an interior lot.

As discussed with City of Brampton Planning and Heritage Staff on November 7, 2022, a Scoped Heritage Impact Assessment is well underway and will be submitted in support of Committee of Adjustment Applications B-2022-0014, A-2022-0320, and A-2022-0321 under separate cover.

Should you require additional information or have any questions, please do not hesitate to contact the undersigned.

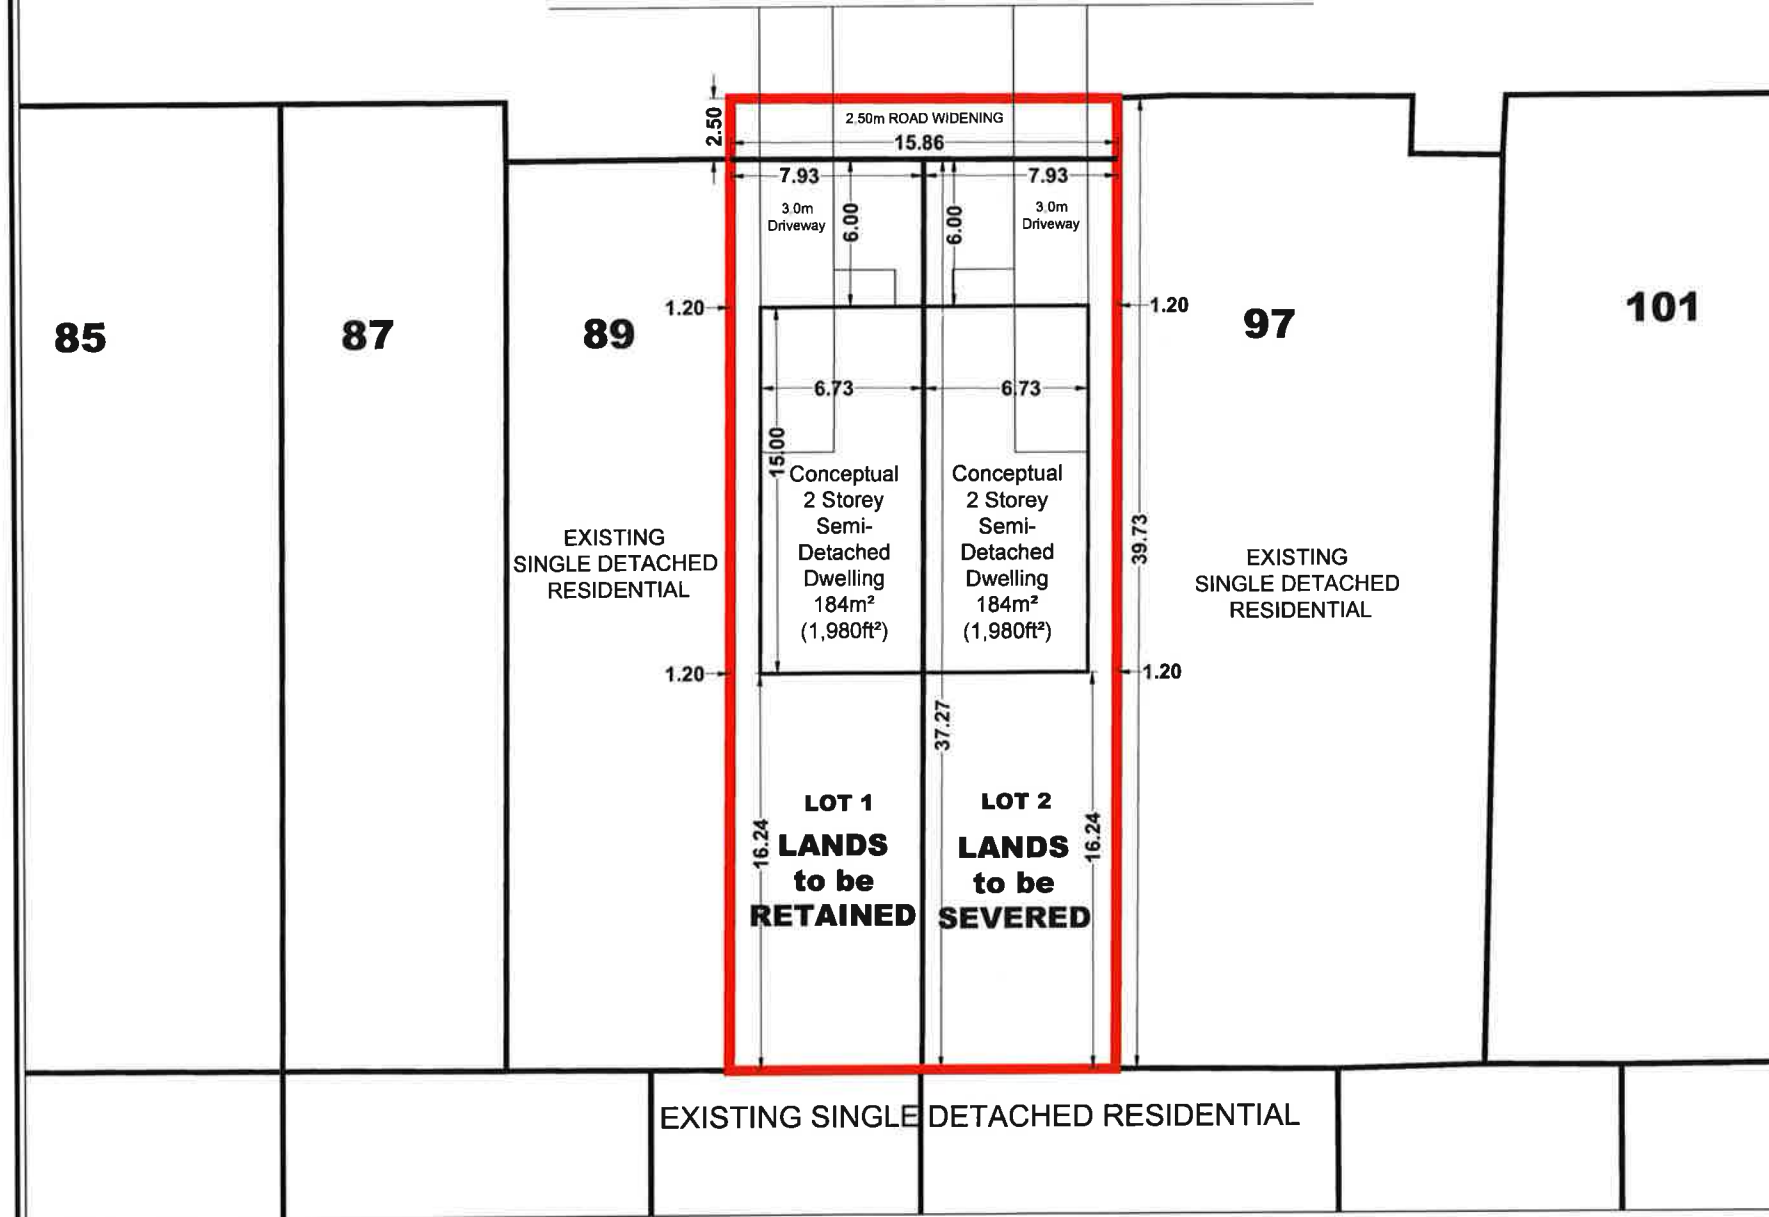

Yours truly,

A handwritten signature in black ink that reads "Anthony Sirianni".

## 1.0 Existing Land Use

### Subject Property & Surrounding Area

The subject site is rectangular in shape, measures approximately 0.063 ha (0.155 ac) in size and is located southeast of the intersection of John Street and Mary Street. The subject site has a lot depth of approximately 39.73 m (130.35ft), a street frontage of 15.85 m (52.02 ft) along John Street and is occupied by a single detached residential dwelling. Driveway access is provided from John Street.

Surrounding land uses generally include Residential and the Canadian National Railway.

**TAB 1** includes Air Photos from Google Earth of the subject site and area context

## 2.0 Consent to Sever Application

It is proposed that the subject site be severed into two (2) Lots; Lot 1 – Retained Lands and Lot 2 – Severed Lands, for the development of a 3-storey single detached residential dwelling on each lot measuring approximately 228 m<sup>2</sup> (2,454 ft<sup>2</sup>). Access to both lots shall continue to be provided from John Street via separate individual driveways.

**TAB 2** includes the proposed Conceptual Severance Plan prepared by Gagnon Walker Domes Ltd. dated August 30, 2022.

The following is a brief summary of the proposed Conceptual Severance Plan:

- Total Site Area: 0.063 hectares (0.155 acres)

### Lot 1 – Retained Lands

- Area: 0.031 hectares (0.077 acres)
- Width: 7.93 metres (26.01 feet)
- Depth: 39.73 metres (130.34 feet)

### Lot 2 – Severed Lands

- Area: 0.031 hectares (0.077 acres)
- Width: 7.93 metres (26.01 feet)
- Depth: 39.73 metres (130.34 feet)

## 3.0 Planning Analysis

The proposed Consent to Sever Application has been analyzed in the context of governing planning documents. The following represents a summary of the highlights of the Planning Analysis.

**Planning Act**

With regard to the Consent to Sever Application, our office has taken into consideration the provisions prescribed within Section 51(24) of the Planning Act (as summarized in the Chart below), and we are of the opinion that the proposed Consent to Sever Application represents good planning and should be supported from a land use perspective.

<b>Criteria To Be Considered</b>	<b>Analysis</b>
The effect of development of the proposed subdivision on matters of provincial interest;	The proposed severance has no significant effect on matters of provincial interest.
Whether the proposal is premature or in the public interest;	The proposed severance is neither premature nor contrary to any matters of public interest.
Whether the plan conforms to the official plan and adjacent plans of subdivision, if any;	The proposed severance conforms to the Official Plan, which designates the site for residential purposes. The Official Plan designates the site Medium Density and the Secondary Plan permits typical residential typologies, but does not exclude single or semi-detached dwellings. The proposal will facilitate a single-detached residential use on the entirety of the subject site (being the severed and retained lands), and it is noted that the City's policies encourage any infill development that proposes an increase in density.
The suitability of the land for the purposes for which it is to be subdivided;	The subject site is suitable for the purposes of the severance. The use of the subject site for single-detached residential is in keeping with the character of the surrounding area, which consists of similar dwelling unit typologies (single and semi-detached) and lot configurations
The number, width, location and proposed grades and elevations of highways, and the adequacy of them, and the highways linking the highways in the proposed subdivision with the established highway system in the vicinity and the adequacy of	The proposed severance does not present any concern with regard to the adequacy of the roadway network. The adjacent road network is suitable for residential purposes, and the proposal serves to add one (1) additional residential dwelling unit

them;	beyond the current use of the site.
The dimensions and shapes of the proposed lots;	The proposed lots to be created are appropriate in size and shape for the 'single detached residential use and are in keeping with the existing neighbouring lot fabric. Associated Minor Variance Applications have been filed to address some performance related standards, which are minor in nature.
The restrictions or proposed restrictions, if any, on the land proposed to be subdivided; or the buildings or structures proposed to be erected on it and the restrictions, if any, on adjoining land;	There are no known restrictions or proposed restrictions on the lands to be subdivided.
The conservation of natural resources and flood control;	The proposed severance presents no concerns with regard to flood control and the conservation of natural resources.
The adequacy of utilities and municipal services;	There are no concerns with regard to the adequacy of utilities and municipal services.
The adequacy of school sites;	The proposed severance presents no concerns with regard to the adequacy of school sites. The effect of the Severance is to add one (1) additional residential dwelling unit.
The area of land, if any, within the proposed subdivision that, exclusive of highways, is to be conveyed or dedicated for public purposes;	There are no concerns related to conveyances for public as part of the Consent Application.
The extent to which the plan's design optimizes the available supply, means of supplying, efficient use and conservation of energy;	The proposed severance has no impact on matters of energy conservation.
The interrelationship between the design of the proposal and site plan control matters relating to any development on the land, if the land is also located within a site plan control area designated under subsection 41(2) of this Act.	This shall be dealt with at the appropriate time during the Site Plan Approval process in connection with the development of the two (2) single detached residential dwellings, as appropriate and as necessary.

#### 4.0 Minor Variance Application

Concurrent with the Consent to Sever Application for the subject site, two (2) associated Committee of Adjustment Minor Variance Applications are also being submitted to the City of Brampton, seeking relief from the Zoning By-law in order to permit the development of two (2) new single detached residential dwellings on both the Retained and Severed lands.

The requested relief from the Zoning By-law, for both applications, is as follows:

1. To permit a minimum lot area of 310m<sup>2</sup> whereas the Zoning By-law requires a minimum lot area of 450m<sup>2</sup>.
2. To permit a minimum lot width of 7.90m for an interior lot whereas the Zoning By-law requires a minimum of 15.0 m for an interior lot.
3. To permit a minimum interior side yard width of 1.20m above the first storey whereas the Zoning By-law requires 1.20m for the first storey or part thereof plus 0.6m for each additional storey or part thereof.
4. To permit a maximum building height of 10.6m whereas the Zoning By-law permits a maximum building height of 8.5m.

The proposed Committee of Adjustment Minor Variance Applications have been analyzed in the context of the governing planning documents. The following represents a summary of the highlights of the Planning Analysis.

**TAB 3** includes the proposed Minor Variance Plans prepared by Gagnon Walker Domes Ltd. dated August 30, 2022.

#### City of Brampton Official Plan (September 2020)

The City of Brampton Official Plan (BOP) provides policy direction to guide future development, protect the health and quality of life of its residents, protect the natural environment as well as preserve, protect and enhance the character and economy of the City.

#### Central Area

According to the BOP, the subject site is designated '*Central Area*'. The *Central Area*, including the Urban Growth Centre, serves as the major location for free-standing or mixed-use development including:

- i. A full range of office, retail and service activities;
- ii. A variety of residential uses;
- iii. Entertainment and cultural uses such as movie theatres, museums;

- iv. Art galleries, live theatre and tourism, yet recognizing commercial trends for such uses in other parts of the City;
- v. Governmental, institutional and community facilities and uses including Places of Worship subject to Policy 4.9.8 of the BOP;
- vi. A high density employment centre that will attract provincially, nationally or internationally significant employment uses; and,
- vii. Major transit infrastructure (Policy 4.1.2).

The requested variances will facilitate the advancement of a proposal which promotes a residential redevelopment in an area where appropriate levels of infrastructure and public service facilities exist or are planned. The development of the two (2) new single detached dwellings units will support local transit service use and connections, as well as support active transportation by locating development that is in close proximity to existing and/or planned community facilities, retail services and open space features.

The requested variances will facilitate the advancement of a residential development proposal which is located within a Mobility Hub – Anchor, consists of housing in a compact urban form that is representative of an infill development that results in an increased density in the Urban Growth Centre, and will assist in maintaining the supply of residential units needed to meet demand and accommodate growth at a density that will optimize available services and infrastructure in accordance with Policies 3.1 and 3.2.1.1.

The following objectives of Brampton’s residential policy are supported by the proposed variances and residential development:

- v) Promoting and facilitating intensification throughout the built-up area and in particular within the Urban Growth Centre and Central Area, intensification corridors, Mobility Hubs, and Major Transit Station Areas;
- (vi) Promoting well planned, well designed and well built residential areas that will enhance the sense of place for residents as well as visitors (Policy 4.2 v) vi)).

The subject site is subject to the Old Housing Mix and Density Categories:

DENSITY CATEGORY	DENSITY RANGE	TYPICAL (BUT NOT RESTRICTIVE) HOUSING TYPES
<ul style="list-style-type: none"> <li>▪ Single Detached Density or</li> <li>▪ Single Family Density</li> </ul>	<ul style="list-style-type: none"> <li>▪ 0-25 units/ net hectare</li> <li>▪ 0-10 units/ net acre</li> </ul>	<ul style="list-style-type: none"> <li>▪ Single detached homes</li> </ul>
<ul style="list-style-type: none"> <li>▪ Semi-Detached Density</li> </ul>	<ul style="list-style-type: none"> <li>▪ 26-35 units/ net hectare</li> <li>▪ 11-14 units/ net acre</li> </ul>	<ul style="list-style-type: none"> <li>▪ Semi-detached homes</li> <li>▪ Link townhouses</li> <li>▪ Small-lot single detached homes</li> </ul>

The variances will facilitate the advancement of a proposal which has been planned at a density that will encourage use of existing and planned local and regional transit that exists in the immediate vicinity. The density proposed will ensure greater efficiency and viability of existing and planned transit service.

The BOP states that the policies shall not be construed as limiting the City's housing mix and density flexibility, or its ability to narrow or expand such categories or the associated densities, or to use them in various combinations within a particular Secondary Plan. The City's Secondary Plans specify the overall residential density and housing mix targets for each planning area and specify, as per Policy 4.2.1.4 that minor variation to the housing density and mix targets in the applicable Secondary Plan, which do not alter the intent of the Plan, shall be considered without an Official Plan Amendment.

### Communities

As it pertains to Communities, it is the objective of the BOP to:

- Promote the development of attractive, well-functioning and accessible Communities through design guidelines including the City of Brampton Accessibility Technical Standards and to recognize the importance of accessible, pedestrian-friendly and transit oriented development (Policy 2.4.3 b)).
- Plan for healthy, sustainable complete Communities that are compact, transit-oriented and pedestrian-friendly with a mix of uses and a variety of housing choices, employment, and supporting services and facilities (Section 3.1).
- Plan for and promote high physical design standards to create distinctive and attractive Communities with a strong sense of place (Section 3.1).

The requested variances will facilitate the advancement of a proposal that is ideally situated and is a form of development that supports the intent and spirit of the BOP as it proposes a pedestrian friendly, compact development that is within walking distance of transit and which can take advantage of existing services. The variances support the development of residential uses in a form and typology that is in keeping with the character of the surrounding lands.

### Anchor Mobility Hub

The subject site is located within a "Mobility Hub – Anchor" per the BOP.

The BOP defines a "Mobility Hub" as a Major Transit Station Area which is located at the interchange of two or more current or planned regional rapid transit lines as identified in the Regional Transportation Plan. Mobility Hubs are places of connectivity where different modes of transportation come together and where there is, or is planned to be, an attractive, intensive concentration of employment, living, shopping and recreation. Mobility Hub areas generally are defined as the area within an approximate 800m radius of the interchange.

The BOP also, defines a “Mobility Hub – Anchor” as a Mobility Hub which has strategic importance due to its relationship within the Urban Growth Centre. An Anchor Mobility Hub has the potential to transform the regional urban structure and act as anchors of the regional transportation system.

According to Policy 3.1 of the BOP, at least 26,500 new dwelling units, between 2006 and 2031, to the built up area, with a focus on higher intensity in the Central Area, the Urban Growth Centre, intensification corridors, Mobility Hubs and major transit station areas.

The BOP indicates that development of greatest mass and highest densities must be located within the Urban Growth Centre and Central Area, along intensification corridors and within Mobility Hubs and Major Transit Station Areas (Policy 3.2.1.1)

The requested variances will facilitate the advancement of a proposal which will assist the City of Brampton in achieving objective of Policy 3.2.5.2.1, as it proposes additional residential within the vicinity of the Anchor Mobility Hub in order to accommodate the highest combined people and jobs per hectare within the Urban Growth Centre.

Residential development in areas outside of the Central Area, including the Urban Growth Centre, Mobility Hubs; Major Transit Station Areas or intensification corridors shall generally be limited to 50 units per net hectare. Furthermore, residential and non-residential development outside of these areas shall generally be limited to 4 stories in height (Policy 3.2.8.3). The variances support a residential development that is in keeping with these parameters.

#### Consent

The proposed variances are consistent with the Consent policies of the BOP, and are supportive of the associated Consent to Sever Application, as it will facilitate the creation of two (2) residential parcels of land which are:

- Of a size, shape and use of the severed land is compatible with the current neighbouring parcel fabric and residential uses (Policies 5.17.4, 5.17.8).
- Serviced by public water and sanitary sewers (Policy 5.17.5).
- Of a similar lot depth and shape as adjoining lots, where appropriate (Policy 5.17.10).
- Each new lot created fronts onto John Street (Policy 5.17.13).

The variance in connection with the reduction in the frontage of each proposed new parcel (7.93 m/26.01 ft) supports is in keeping with the intent and policies of the Official Plan, as it provides an intensified/infill residential development in an area that is planned for such a use, and the new residential lots are of a size, shape and land use (single detached residential) which is compatible with and respects the current neighbouring residential parcel fabric.

While Sections 5.17.4, 5.17.8 and 5.17.10 of this plan, notes that Consent to Sever applications shall be discouraged within the Central Area Medium Density designation of the Downtown Brampton and Queen Street Corridor Secondary Plans except to facilitate land assembly, it is noteworthy that the policy does not prohibit them. The subject site, and the proposed variances specifically, proposes an infill residential development that serves to increase the density of the subject site and surrounding area thereby supporting Official Plan policies and objectives, in form and typology that is supported and in keeping with the character of the surrounding area.

The submitted Minor Variance and Consent to Sever Applications will facilitate the development of two (2) new residential lots, consisting of two (2) single detached residential dwellings. The new residential lots are of a size, shape and land which is compatible, respects the current neighbouring residential parcel fabric, and due to its location efficiently utilizes existing and planned local transit and infrastructure.

It is our opinion that the proposed severance, minor variances and use of the subject site for two (2) single detached residential dwellings conforms to the general intent and purpose of the Official Plan.

See **TAB 4** for select BOP schedules.

#### **Downtown Brampton Secondary Plan (Area 7) (February 2019)**

The subject site is designated 'Medium Density' on Schedule SP7(A) of the Downtown Brampton Secondary Plan (Area 7).

#### **Medium Density**

In areas abutting the Central Area Mixed-Use designation, and those neighbourhoods in a state of transition, Medium Density housing is designated (Section 5.0).

Lands designated Medium Density on Schedule SP7(a) shall be developed to a maximum of 50 units per net residential hectare (15 to 20 units per net residential acre). Typical residential uses associated with the Medium Density designation include block townhouse, street townhouse, quattroplexes and interlot housing types (Policy 5.2.3.1).

It is noteworthy that while note specifically identified in the aforementioned policy, the Secondary Plan does not exclude single detached and semi-detached dwelling uses, and as such, the requested variances to facilitate the development of the subject site for two (2) single detached residential dwellings is appropriate given the current local residential context of the surrounding local community.

The intention of the Medium Density designation shown on Schedule SP7(a) is to encourage infill residential development of a sympathetic scale to existing building stock. The retention and conversion of existing homes is to be encouraged (Policy 5.2.3.2). The proposed development of the subject site through the Consent to Sever and Minor Variance Applications is an example of infill residential development that is supported by this policy.

The submitted Consent to Sever and Minor Variance Applications will facilitate the development of two (2) new residential lots consisting of two (2) single detached residential dwellings. The new residential lots are of a size, shape and land which is compatible, respects the current neighbouring residential parcel fabric, and due to its location efficiently utilizes existing and planned local transit and infrastructure.

It is our opinion that the proposed Consent to Sever and Minor Variance(s) and use of the subject site for single detached residential dwellings conforms to the general intent and purpose of the Secondary Plan.

See **TAB 5** for select Secondary Plan Schedules.

**City of Brampton Zoning By-Law 270-2004**

The Subject Site is zoned 'Residential Single Detached B – R1B Zone'.

The Residential Single Detached B – R1B zone permits the following uses:

- A single detached dwelling;
- Supportive Housing Residence Type 1;
- A place of worship; and
- Purposes accessory to the other permitted purposes.

The following table summarizes the 'Residential Single Detached B – R1B' Zone provisions:

(a) <b>Minimum Lot Area</b>	Interior Lot: 450 square metres Corner Lot: 540 square metres
(b) <b>Minimum Lot Width</b>	Interior Lot: 15 metres Corner Lot: 18 metres
(c) <b>Minimum Lot Depth</b>	30 metres
(d) <b>Minimum Front Yard Depth</b>	6 metres
(e) <b>Minimum Interior Side Yard Width</b>	1.2 metres for the 1 <sup>st</sup> storey or part thereof plus 0.6 metres for each additional storey or part thereof
(f) <b>Minimum Exterior Side Yard Width</b>	3 metres
(g) <b>Minimum Rear Yard Depth</b>	7.5 metres
(h) <b>Maximum Building Height</b>	10.6 metres
(i) <b>Maximum Lot</b>	No requirement

Coverage	
(j) <b>Minimum Landscaped Open Space</b>	60% of the minimum front yard area of an interior lot, 70% of the minimum front yard area of a corner lot, and 50% of the minimum front yard area of a lot where the side lot lines converge towards the front lot line

The subject site is also located within the Mature Neighbourhood Area designation of the Zoning By-Law. The Mature Neighbourhood Area Zoning Provisions are as follows:

- Minimum Rear Yard Depth – equal to 25% of the depth of the lot or the minimum rear yard required by the zone of the lot, whichever is greater.
- Minimum Interior Side Yard Width: 1.2 metres setback for the first storey plus 0.6 metres setback for each additional storey if your lot has a width of 16 metres or less.
- 1.8 metres setback if the lot has a width between 16 metres and 21 metres.
- 2.8 metres setback if the lot has a width between 21 metres and 30 metres.
- 3.0 metres setback for lots having a width of 30 metres or greater.
- Maximum Lot Coverage: 30% of the lot area, excluding permitted accessory structures.
- Maximum Building Height: 8.5 metres.

The requested variances will facilitate the advancement of a proposal which promotes a residential redevelopment in an area where appropriate levels of infrastructure and public service facilities exist or are planned. The development of the two (2) new single detached dwellings units will promote increased efficiencies in local transit service/connections and will support active transportation by locating development that is in close proximity to existing and/or planned community facilities, retail services and open space features.

The proposal is also of a compact urban form which will assist in maintaining and increasing the supply of residential units needed to meet demand and accommodate growth within the City of Brampton.

It is our opinion that the proposed severance, minor variance(s) and use of the subject site for a single detached residential dwelling conform to the Zoning By-law.

See **TAB 6** for an excerpt from the Zoning By-law Schedule.

### **Desirable and Appropriate Development of the Land**

The submitted Minor Variance and Consent Applications will facilitate the development of two (2) new residential lots for the development of two (2) single detached residential dwellings. The new residential lots are of a size, shape and land which is compatible, respects the current neighbouring residential parcel fabric, and due to its location efficiently utilizes existing and planned local transit and infrastructure.

The subject site is located in an area that is designated for residential purposes and where increased density through infill or intensification proposals are encouraged. In this regard, we are of the opinion that the proposed variances are considered desirable and appropriate for the development of the land.

### **Minor in Nature**

The requested severance and the associated variances will serve to create two (2) residential lots; one (1) dwelling each on both the Severed and Retained Lands which is in keeping with the character of the surrounding community. The lot sizes to be created by the proposed severances are also in keeping with lots located in the immediate area, and the proposed continued use of the subject site for residential purposes in an area designated residential meets the general intent and purpose of both the Official Plan and Zoning By-Law. The proposal makes efficient use of existing, available municipal services and is deemed appropriate and desirable.

In this regard, we are of the opinion that the proposed variances are considered minor in nature and should be supported.

Should you require additional information or have any questions, please do not hesitate to contact the undersigned.
