Mr. Power and Mr. Fortini,

I am vehemently opposed to council approving the free giveaway of Faraday bags to car owners who are at risk of having their cars stolen. According to Mayor Brown these bags only cost \$6. If someone can afford a car they can afford to buy their own Faraday bag. Taxpayer dollars should be used to benefit all taxpayers not just those who own cars. This is an egregious misuse of taxpayer money and I expect both of you to vote against this motion. I look forward to your response. Thank you.
