

**Petition to the City of Brampton**Date: OCT · 2020**Issue Background:** *(Statement of opportunity or concern prompting the petition)*

Unlike many other municipalities the responsible management of feral cat colonies and their caregivers is not currently supported by the City of Brampton through the implementation of a TNR (Trap, Neuter, Return) program. TNR has repeatedly been proven to be an effective humanely managed program in reducing and even eliminating feral cat colonies through natural attrition.

**We the Undersigned:** *(Clear statement of the specific request made to the City of Brampton for action by those persons signing this petition)*

We require the City of Brampton to:

Enact amendments to Animal Control By-law, as amended, to provide exemptions to the At-Large and Licensing provisions and implementation of protocols to support a TNR program.

To inform the community about the responsible management of feral cats (the TNR program) and the care for feral colonies, its benefits and cost savings.

To support rescue groups and colony managers practising TNR and to treat free roaming cats in a humane, compassionate and non-lethal manner.

Personal information on this form is collected under authority of the Municipal Act, SO 2001, c.25 and/or the Planning Act, R.S.O. 1990, c.P.13 and will be used by the City of Brampton to address the petition request, and personal information may be released publicly as part of a City of Brampton Council or Committee meeting agenda and publicly available on the City's website. Questions about the collection of personal information should be directed to the Deputy City Clerk, Council and Administrative Services, 2 Wellington Street West, Brampton, Ontario, L6Y 4R2, tel. 905-874-2115.

**Petition to the City of Brampton**Date: SEP 2020**Issue Background:** *(Statement of opportunity or concern prompting the petition)*

Unlike many other municipalities the responsible management of feral cat colonies and their caregivers is not currently supported by the City of Brampton through the implementation of a TNR (Trap, Neuter, Return) program. TNR has repeatedly been proven to be an effective humanely managed program in reducing and even eliminating feral cat colonies through natural attrition.

**We the Undersigned:** *(Clear statement of the specific request made to the City of Brampton for action by those persons signing this petition)*

We require the City of Brampton to:

Enact amendments to Animal Control By-law, as amended, to provide exemptions to the At-Large and Licensing provisions and implementation of protocols to support a TNR program.

To inform the community about the responsible management of feral cats (the TNR program) and the care for feral colonies, its benefits and cost savings.

To support rescue groups and colony managers practising TNR and to treat free roaming cats in a humane, compassionate and non-lethal manner.

# **Petition to the City of Brampton**

Date: OCTOBER 2020

## **Issue Background:** *(Statement of opportunity or concern prompting the petition)*

Unlike many other municipalities the responsible management of feral cat colonies and their caregivers is not currently supported by the City of Brampton through the implementation of a TNR (Trap, Neuter, Return) program. TNR has repeatedly been proven to be an effective humanely managed program in reducing and even eliminating feral cat colonies through natural attrition.

## **We the Undersigned:** *(Clear statement of the specific request made to the City of Brampton for action by those persons signing this petition)*

We require the City of Brampton to:

Enact amendments to Animal Control By-law, as amended, to provide exemptions to the At-Large and Licensing provisions and implementation of protocols to support a TNR program.

To inform the community about the responsible management of feral cats (the TNR program) and the care for feral colonies, its benefits and cost savings.

To support rescue groups and colony managers practising TNR and to treat free roaming cats in a humane, compassionate and non-lethal manner.

## We the Undersigned: (Clear statement of the specific request made to the City of Brampton for action by those persons signing this petition)

We require the City of Brampton to:

Enact amendments to Animal Control By-law, as amended, to provide exemptions to the At-Large and Licensing provisions and implementation of protocols to support a TNR program.

To inform the community about the responsible management of feral cats (the TNR program) and the care for feral colonies, its benefits and cost savings.

To support rescue groups and colony managers practising TNR and to treat free roaming cats in a humane, compassionate and non-lethal manner.

# Petition to the City of Brampton

Date: Oct. 2020

## Issue Background: (Statement of opportunity or concern prompting the petition)

Unlike many other municipalities the responsible management of feral cat colonies and their caregivers is not currently supported by the City of Brampton through the implementation of a TNR (Trap, Neuter, Return) program. TNR has repeatedly been proven to be an effective humanely managed program in reducing and even eliminating feral cat colonies through natural attrition.

## We the Undersigned: (Clear statement of the specific request made to the City of Brampton for action by those persons signing this petition)

We require the City of Brampton to:

Enact amendments to Animal Control By-law, as amended, to provide exemptions to the At-Large and Licensing provisions and implementation of protocols to support a TNR program.

To inform the community about the responsible management of feral cats (the TNR program) and the care for feral colonies, its benefits and cost savings.

To support rescue groups and colony managers practising TNR and to treat free roaming cats in a humane, compassionate and non-lethal manner.
