with all

To everyone who has ever
dreamed of lacing up skates,
laying up a stick, and finding
their home on the ice.

The Hockey Jersey was commissioned as part of
hockey for all platform and our mission to make hockey more
diverse, inclusive, and accessible. We want all children to see
a place for themselves in hockey and to feel welcome, safe,
and included in the game. The story of Kareema and her
teammates was made to inspire Canadians from all walks of
life - like they have a place in our national game.

We created copies of The Hockey Jersey to distribute
across the country. All proceeds going to Hockey 4 Youth
to help the game. Free copies are being
available in schools and communities across Canada.
The Hockey Jersey will inspire the
young and fans. Find res

A new hockey story to inspire the next generation.

The Hockey Jersey was commissioned as part of Scotiabank's hockey for all platform and our mission to make hockey more diverse, inclusive, and accessible. We want all children to see a place for themselves in hockey and to feel welcome, safe, and included in the game. The story of Kareema and her teammates was made to inspire Canadians from all walks of life - to feel like they have a place in our national game.

We created The Hockey Jersey to distribute across the country. Free copies are being made available to communities across Canada. It's our hope that this story will inspire the next generation to learn more about the game and continue to play.
