Dear Mayor Brown and Members of Brampton City Council,

As developers in Brampton, we are writing to express our enthusiastic support for the proposed LRT Extension Study.

Having well-connected communities with easy access to public transit is essential to the success of our projects. As builders, we have seen firsthand the positive impact that reliable transit options can have on residents' daily lives. With the LRT extension, we see an opportunity to add even more value to the area by attracting new investment and residents to the area.

Therefore, we strongly urge you to support the proposed LRT extension and work towards its successful completion. Not only will it benefit Brampton residents, but it will also benefit the business community, including builders like us, by contributing to the ongoing growth and development of the city.

Thank you for your time and consideration.
