Dear Ms Myers (Committee of Adjustment, City of Brampton),

I am a general member of SJTC and wanted to voice my **opposition** to the application for change of zoning of the property, 9893 Torbram Rd, Brampton (Application #A-2022-0373).

The ownership of this land is still under dispute, which is still ongoing in the superior Court of Justice. This land was originally bought for religious purposes for a Hindu temple, but now is under dispute by Mr. Mishra. As a member of the religious organization, I believe any zoning or usage changes should be requested or made after the dispute has been settled.

I believe I share the same sentiments as most of the members of SJTC, who used to volunteer and take part in the temple activities. Hence I oppose this application very strongly.

Regards
Salina Behera
