Hi

I am strictly disagreeing with the building plan on property 8383 between Mississauga road and sky harbour drive this is all residential area if you see on the left side of Mississauga road there is all commercial area and all shops and offices are facing to Mississauga road or financial drive and then behind big area for parking and then there is a street and then residential area there is big gap between commercial and residential area but here at sky harbor side there no such a big gap all residential area even the denial homes are also facing to Mississauga road and this building nothing to do with the financial drive there is a big plot left of 8383 so please it's a 100% illegal to build a commercial building in front of the houses on sky Harbour drive people use to walk with the family and kids ride bicycle there is very illegal to build a six floor building facing to sky harbor drive from steels up to queens street even up to Walmart plaza there is no commercial building so please do not approve any plan thanks
