Good Afternoon
APPLICATION #A-2023-0177
WARD #7

We are writing on behalf of the application quoted above.

When the applicant first moved in, we were told by them that this would be a Single-Family residence.

Since this time there has been an increased flow of people living in the home, which has increased traffic to our quiet court, people standing around outside in front of this residence and parking issues.

They have already made a basement apartment exist, to increase the house from a Single-Family dwelling to a multi-Family residence.

This is a small quiet court to allow us to raise young children in a safe environment with minimal traffic. With the increased traffic already and pending traffic and parking this would cause more issues for the other residents that live on the court.

Regards

Karen Barnett
