Good morning,

I am a resident of Copperridge area. I strongly protest and oppose the proposed redesignation and rezoning of this property. The original zoning should continue and this proposed high density residential development is not acceptable as it does not support related services such as schools, playground, community places, stores such as groceries, hardware, gyms etc., not to mentioned traffic congestions, overcrowding the schools, public areas etc.

I have the city of Brampton will consider this seriously.

Thanks

Jaswinder Gill
