The following motion was considered:

Ms. Swinfield added that a development application was submitted to the City in 2021 for the construction of two residential, podium style towers, however it was determined that the round BMO building viewed as a modernist building, and referred to as the “the circular pavilion” meets the criteria of heritage value or interest. The proposal included the relocated and integration of the pavilion into the proposed building.

The following motion was considered:

Shelby Swinfield, Heritage Planner, provided an overview of the subject property located at 8000 Dixie Road, noting that the building was currently listed on the City's Municipal Register of Cultural Heritage Resources.

Ms. Shelby added that a redevelopment application was submitted to the City for the construction of mixed use industrial warehouses and sales offices. The

redevelopment included the demolition of the existing warehouse and administration building and the construction of four buildings. The landmark “Ford” sign will be retained along with a commemorative installation recognizing the history of the property.

In response to questions and concerns from the Board, staff advised that the owner of the property was expanding its operation and additional office and administration space were required to accommodate the expansion. 9.4 Report by Charlton Carscallen, Supervisor, Principal Planner, re: Heritage Impact Assessment, 223 Main Street North – Ward 1

Charlton Carscallen, Supervisor, Principal Planner Heritage, provided an overview of Heritage Impact Assessment for 223 Main Street North, noting that the property was acquired to facilitate parking requirements for the proposed two 48 storey buildings, referred to as 'Bristol Place' in the downtown. The removal of the property from the Municipal Register of Cultural Heritage Resources was approved by Council on August 9, 2023. The subject report outlined the heritage value of the building and the potential impact and implication of removing the building from the register.

The Board expressed concerns on the removal of the building from the heritage register given that it meets five criterias for designation, and the loss of several other heritage buildings in the downtown to future development.

Staff advised that the direction from Council was that redevelopment and intensification of downtown was necessary to meet growth demands in the City and outlined the options presented to the applicant for retention, relocation and salvaging of materials from the building.

The Board suggested that developers be creative with respect to parking requirements for such proposals and that the City needs to be more mindful of its heritage buildings when considering proposals.

The following motion was considered:

### **HB055-2023**

1. That the report from Charlton Carscallen, Supervisor, Principal Planner Heritage, dated September 8, 2023, to the Brampton Heritage Board Meeting of September 19, 2023, re: **Heritage Impact Assessment, 223 Main Street North – Ward 1** be received;
