Hi Clara,

So, I'm trying to send 7 pictures at a time of all the fence posts in this area to see if you will receive them..

These pictures are of 7 vertically straight Light Blocking Fence posts near the shed with a difference of within 1 degree above or below 90 degrees.

These 7 pictures were taken on October 7, 2023.

This Light Blocking Fence was built in July, 2021.

Please add this to the agenda.

Sincerely, Michael Petrishin

Hi Clara,

These are all the fence posts in this area near the tree.

These 6 pictures are proof that the 6 Light Blocking Fence posts near the tree are vertical straight in the ground within 1 degree above or below 90 degrees.

These pictures were taken on October 8, 2023.

This Light Blocking Fence was built in the spring of 2021 to block extremely bright light. Please include these pictures to the agenda.

Sincerely, Michael Petrishin

Subject: [EXTERNAL]5 Pictures of Neighbours Extremely Bright Light Bulbs Piercing into My Eyes at Night while I'm in my backyard; Fence Posts Hammered into Ground to build Light Blocking Fence; 16 Page Report dated June 21, 2022

Caution: This email originated from outside the organization. Do not click links or open attachments that you do not trust or are not expecting.

Hi Clara,

These pictures are of the neighbours extremely bright light bulbs which pierce into my eyes nearly every day during the hours of dusk, night time and early morning when it is dark outside. So, when the harsh direct light from the light bulb hits my eyes at any and every angle the direct light causes severe pain to my eyes externally and internally, causing me light blindness plus additional severe pain to my head, neck and back which forces me to lose my balance.

This harsh direct light endangers my life plus completely interferes with my privacy while I am in my home and backyard. (4 pictures)

1 picture of Light Blocking Fence posts hammered into the ground.

Please include into the agenda my 16 page report dated June 21, 2022. This report has detailed information on the materials I used to build a Light Blocking Fence, my disabilities, news broadcast dates of high winds in Brampton and surrounding area, requesting By-Law for support, calling to receive support through www.brampton.ca residents>building permits.

Please include these 5 pictures and 1 report into the agenda.

I will be attending the meeting in person. I may have a community support worker attend the meeting with me. This is not confirmed yet.

Sincerely, Michael Petrishin
