## **7. Public Question Period**

Peter Fay, City Clerk outlined questions submitted to the City Clerk's Office from Ramaljit Sandhu, Credit Valley Residents Association, one of the delegations at today's meeting, regarding Item 7.2 in the Summary of Recommendations from the Planning and Development Committee Meeting of August 25, 2023, as follows:

1. Why is Queen Street W. between Credit view and Mississauga Road considered a transit corridor since there is only BRT proposed but not approved. This was authenticated by Councillor Palleschi.
2. Why is Queen Street W. between Credit view and Mississauga Road considered a suitable area for mid and high rises as there are no highways, no plazas, no Bus stations, no Go station, no elementary, middle or high school close by or even proposed!!!!
3. Why are existing residents who have spent their lifetime earnings not listened to time and again and only developers are being supported??

4. Why is Elbern Markell and Queen application being promoted when at the public meeting it did not meet the Silver or Gold sustainability levels and is super close to executive homes who have been paying premium taxes for over 15 years? Was it done or has not been done behind closed doors without public knowledge?

Steve Ganesh, Commissioner, Planning, Building and Growth Management, suggested that the questions be referred to staff for consideration when final Tertiary Plan is brought forward, as directed.

Mr. Ganesh assured Members of Council and residents that no decisions or recommendations from his department are being made behind closed doors, that all reports are available online for review, that staff has been forthcoming with information for residents to contact them, and that all reports have been delivered to Council in an open and transparent manner.

Cheryl Roy, Brampton resident, asked the following question regarding Item 7.2 in the Summary of Recommendations from the Planning and Development Committee Meeting of August 25, 2023:

1. Why was the traffic impact study submitted by the applicant approved as is?
2. When will the BRT come to Queen Street West, can you also confirm whether there is now a funding plan or budget in place to help towards Brampton's share of BRT-related costs?
3. Please identify the addresses of the 10 to 16 storey projects that have been approved that are directly adjacent to the upscale executive housing projects that are zoned as Residential 1?
4. Councillor Vicente had asked the developers to re-work the plan for the sustainability score to get to at least silver level instead of bronze, however, what about the compatibility of the other service level concerns? What about the south side and west side, we can see the aerial view to show compatibility? What about the parking in those areas, we don't want the overview of cars coming into our neighbourhood?
5. Where is consolidated studies to show the complete impact of Mississauga Road and Chinguacousy Road? Why does the School Board and other agencies still respond to individual file, i.e. for this specific application?

6. When can we have consolidated reports shared with the residents, this report should show realistic projections for population increase and proportionate impacts on all services to the residents including any increase to property taxes?
7. Will there be any jobs created after the development retail business analysis and impact study, how can we plan without clarity on the purpose of use?
8. Who will be responsible and accountable to meet targets expectations for all essential services for the residents?
9. It was suggested that affordable housing should be made available to the immigration and the concerns by Premier Doug Ford, how come they picked the most expensive area in Brampton to build hi-rise projects?
10. Why can't we have more townhouse public consultation processes as a dialogue, as a way to develop the City together? Why not with the impacted public, City planning team, Councillors, local MPs, MPPs organized by the developer for the full transparency and inclusive process?

Mr. Ganesh noted that some questions raised were not in relation to a development application considered by Committee on September 25, 2023, and that the other theme of questions were in relation to the Springbrook Tertiary Plan considered on that date.

Mr. Ganesh outlined the direction given to staff to report back with a plan that respects the existing well-established communities and the principles of context design in order to address previous concerns and the questions from residents.

Ted Brown from Regeneration Outreach, one of the tenants of 253 Queen Street East, asked about the next steps and timelines relating to Item 7.6 in the Summary of Recommendations from the Planning and Development Committee Meeting of September 25, 2023.

Mr. Ganesh outlined the next steps and indicated that staff were in attendance at the meeting and could respond to any further questions from Mr. Brown.
