Subject: [EXTERNAL]Proposed Development at 227 and 229 Main Street - # OZS-2021-0056

Caution: This email originated from outside the organization. Do not click links or open attachments that you do not trust or are not expecting.

To Honourable Mayor, Councillors and City Staff,

The proposed development at 227 and 229 Main Street will not only disrupt the peaceful and tranquil environment of our community, but it will also have a negative impact on the overall character of the neighbourhood. The construction of a 23 and 19 story high-rise building in such close proximity to a single-family community will greatly disrupt the aesthetic of the community. In honesty, apart from casting long shadows on the surrounding areas and destroying the natural beauty of our neighbourhood, it will turn the private relaxing spaces into a claustrophobic space with these two tall buildings towering over the area. The construction will fundamentally change the character of our neighbourhood. I strongly urge you to reconsider height of the proposed buildings to maximum 10 story building so that it doesn't have negative impact on our community, but add to it.

Regards,

Hardial
