Re.: Application Number B-2024-0002

Application Number A-2024-0046

Application Number A-2024-0047

Dear Sirs,

We have been living in Brampton for over four decades. The area we are living in supposed to be single family dwellings.

The above noted applications are not for improving the neighborhood, seem like not "minor variances", look rather like a major change, which would have an impact on the standard of living for old residents in the area.

We are opposing to all three above noted applications.

We are giving authorization to present this document on the agenda.

Kathy Doljac
